

Global Perspectives

Year 1

Cambridge Early Years

Student Manual

ABOUT THIS BOOK

Dear World

Global Perspectives · Year 1 · Student Book. First edition, 2026.

Prime Books is the publishing imprint of Prime School, Portugal. www.primeschool.pt

© Prime School 2026. All rights reserved. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form without the prior written permission of the publisher.

Independent publication notice. This is an independent publication produced by Prime School for use within its own programmes of study. It is not affiliated with, licensed by, endorsed by or otherwise approved by Cambridge University Press & Assessment or any examination body. References to curriculum frameworks represent the interpretation of the authors.

Trademark acknowledgements. All product names, trademarks and registered trademarks mentioned in this book are the property of their respective owners and are used for identification purposes only.

Every activity, letter, character and illustration was created for Prime School. The children who write the letters are invented, but the places they write from and every fact in a **Did you know?** panel are real and were checked before printing. Sources are listed in **Where we found out** at the back.

★ A note for grown-ups

Global Perspectives is not a subject about faraway facts. It is about learning to stand somewhere else and look back at yourself. That starts small: noticing that the child next to you plays a different game or gets to school a different way. There are no printed answers here. Children say what they think aloud, then circle, draw or colour their own choice. When two children disagree, that is not a problem to fix. That is the lesson.

Editorial, design and illustration: Prime Books studio, Lisbon. The drawings are our own; where we show a real object or place, the caption says so.

DEAR WORLD

CONTENTS

What is inside?

Unit 1	Sports and recreation Games, teams and keeping well	10
Unit 2	Rich and poor What we need and what we want	34
Term 1	Looking back Revision, my best work, things we did	50
Unit 3	Digital world Screens, safety and being kind	53
Unit 4	Improving communication Talking, listening and feelings	69
Term 2	Looking back Revision, my best work, things we did	85
Unit 5	Moving goods and people Journeys, transport and our air	88
Unit 6	Family, friends, community and culture Who we belong to	105
Term 3	Looking back Revision, my best work, things we did	120
Show	Our World Fair The whole class puts on a fair	123
Words	My word book Every new word with its picture	126

WELCOME

The world has post for you

This book is full of letters. They come from children who live a long way from here. They will tell you about their games, their homes, their journeys and their favourite days of the year.

Some of it will feel just like your life. Some will feel very strange. Both feelings are useful: strange means your brain has noticed that **there is more than one way to do things**.

You will write back

In this book you do not only read. You draw, you circle, you colour and you talk. Some pages have a dashed box. That space belongs to you.

Did you know?

There are **195 countries** in the world and about **7,000 languages**. If you learnt one new hello every day, it would take over **19 years**.

WELCOME

THIS BOOK BELONGS TO

My passport

A passport is a little book that says who you are and where you are from. This is yours. Fill it in, and it is ready to travel.

draw
your face
here

MY NAME

MY CLASS

WHERE I LIVE

A passport gets a round stamp each time it visits somewhere new. You will collect one at the end of every unit in this book.

Colour one star for each thing you like

playing

reading

friends

family

MY PASSPORT

Signs to look for

The same signs come back on every page. Once you know them, you always know what to do next.

Look who's here!

A new friend, and a question to talk about.

A letter from...

A real letter to read out loud together.

Let's find out

Something new, with a picture that shows you how.

Did you know?

A true and surprising fact.

→ One step more

An extra idea, if you would like more.

Big thinking

A harder task. Take your time.

The big question

Once in every unit, a question with no answer in the book.

Two ways of seeing

This sign comes back again and again in this book. It is the whole idea of Global Perspectives, and it is very simple:

Two people can look at the very same thing and see something different. And they can both be right.

👁 Two ways of seeing

Ana says

Rain is horrible. We could not play football at break.

Kofi says

Rain is wonderful. Our vegetables were thirsty.

Who is right? They both are.

- 1 Read what Ana says. Then read what Kofi says. Say out loud **why** each one thinks that.

Rain is the same rain. The two children are standing in different places.

- 2 Draw something you like that a friend does not like.

Before you start

Your explorer kit. You will not need all of it at once. Each unit tells you what to fetch.

✓ Four rules for our class

1. **One voice at a time.** Everyone gets a turn.
2. **Listen right to the end** before you answer.
3. **You may disagree.** Say *I think differently because...*
4. **Be kind about places** you have never been to.

★ WORDS FOR OUR CLASS

world

everywhere and
everyone

map

a picture of a place

country

a place with a name

globe

the world as a ball

Say each word above out loud.

Six big ideas

Six units, six colours. You will visit all six this year.

1 Sports and recreation. The games children play, and why moving about keeps us well.

2 Rich and poor. What every person needs, and what is only nice to have.

3 Digital world. Screens, robots, and how to be safe and kind.

4 Improving communication. Talking, listening, and saying how you feel.

5 Moving goods and people. How you get to school, and how a banana gets to your shop.

6 Family, friends, community and culture. Who you belong to, and how the world celebrates.

Did you know?

About **2 billion** people on Earth are children.

Six skills for looking at the world

In this book you do more than learn facts. You practise six skills. Grown-ups call this Global Perspectives. You can call it **learning to look from more than one place**.

Ask and find out

Ask a simple question. Look at a letter, a picture or a friend. Try a small investigation.

Look and think

Say what you know. Sort things. Notice what happens because of a choice.

Choose and say why

Pick a source or an idea. Say your opinion out loud. It is fine if a friend thinks differently.

Look back

What did you do to help? What did someone else do? What did you like learning?

Work together

Share pencils and ideas. Be kind in a pair or a team. Help the class finish a job.

Talk and listen

Answer with real information. Listen to the end. Ask a simple question back.

Teacher note (adult only): these match Cambridge Primary Global Perspectives Stage 1 skill strands in child language. Do not print exam-board names on pupil pages.

Every unit is a Challenge

A Challenge is a big question for the whole class. You will look, talk, draw, choose, work together, and look back. There is no single right answer book.

What you will do in each Challenge

- ✓ **Ask** a question about the topic
- ✓ **Use a source** (a letter, a picture, a friend, a class chart)
- ✓ **Record** what you find (tally, sort, or pictogram)
- ✓ **Say an opinion** and hear another point of view
- ✓ **Work together** on a small class project
- ✓ **Look back** on the “How did it go?” page

TRY IT NOW

Circle one skill you already feel good at. Draw a star next to one you want to practise.

Ask and find out

Look and think

Choose and say why

Look back

Work together

Talk and listen

CHALLENGE 1 · SPORTS AND RECREATION

How do children play and keep well?

Games, teams, safety and free time in different places.

Ask and find out

Look and think

Work together

Look back

1 · ASK

Write or draw one question you have about play in another country.

2 · CLASS PICTOGRAM · OUR FAVOURITE WAY TO MOVE

Each child colours one cell in their column. Talk about the tallest column.

run	ball	dance	swim	other
---	--	---	--	---

3 · CHOOSE A SOURCE

Which helps you learn about games in another place?

a letter

a photo

a friend

4 · MY OPINION

The best part of a game is...

winning

playing together

learning a skill

Sports and recreation

Games, teams, and why moving about makes us feel so good.

● My favourite sport

● Indoor and outdoor

● Games around the world

● Why we exercise

● Playing safely

● Teamwork

● Sports near us

● Sport for everyone

● Free time

● Weather

● Healthy habits

GET STARTED

Everybody plays

Four children, four favourite things. Not one of them is wrong.

**Look who's here!**

These four children go to four different schools in four different countries. Each one is holding the thing they love best. **Point at the one you would choose.**

🚩 In this unit you will

- ✓ name games you play indoors and outdoors
- ✓ learn three games children play in other countries
- ✓ find out what happens inside your body when you run
- ✓ learn how to play safely and fairly
- ✓ work out why a team needs every single player
- ✓ plan your own class sports day

TOPIC 1.1

My favourite sport and game

Ana lives in Lisbon and plays in the square by her house.

☐ **A letter from Ana, in Lisbon**

Dear friend,

My favourite game is football. I play in the square by my house with my cousins. I am not the fastest, but I am very good at stopping the ball.

From Ana

Let's find out

A **sport** has rules, a way to win, and often a team. A **game** is anything you play for fun. Football is both.

1

Draw yourself playing your favourite game.

Say its name out loud first.

my favourite game

TOPIC 1.1

Is it a sport, or is it a game?

Some are both. Some are only a game. Talk about each one, then circle.

Sport**football****a team race****Just a game****board game****hide and seek**👁 **Two ways of seeing****Ana says**

The best part of football is winning the match.

**Mateus says**

The best part is playing with my cousins. I forget the score.

Both love football. They love different parts of it.

★ **MY NEW WORDS****sport**

has rules

**game**

for fun

**rules**

how we play

**win**

come first

TOPIC 1.2

Indoor and outdoor games

Indoors. A rainy afternoon.

Outdoors. Room to run.

 Let's find out

Outdoor games need space, and often good weather. **Indoor** games need less room, and you can play them in any weather. Some games work in both places, like a beanbag toss.

1 Sort these into the right box. Draw a small picture in each one.

I play this indoors

I play this outdoors

Which do you do more, indoor or outdoor games? Does that change in winter?

TOPIC 1.3

Traditional games around the world

Children everywhere play. But they do not all play the same things. Here are three real games from three real places.

 Find it on the map

Games travel around the world

Put a finger on Portugal. Now follow each dotted line. Which country is furthest from us?

TOPIC 1.3

Oware, from Ghana

Playing oware in Ghana. The board has two rows of cups, and the seeds travel round and round.

**Let's find out**

Two players move small seeds around a wooden board with carved cups. You try to collect more seeds than the other player. It is one of the **oldest games in the world**.

**Did you know?**

Games in the oware family have been played across Africa for **thousands of years**. People have found rows of cups carved into rock.

1

Play oware with an egg box and dried beans. Count your seeds at the end.

TOPIC 1.3

Two more games from far away

Capoeira, from Brazil.

Kabaddi, from India.

**Capoeira, from Brazil**

Two people move together inside a ring of clapping friends, always with music. It looks like dancing and fighting at once. It began among African people brought to Brazil, who hid their skills inside a dance.

**Kabaddi, from India**

One player runs into the other team's half, tries to tag someone, and must get home again **without taking a new breath**.

**Did you know?**

In 2014 the United Nations added **capoeira** to a list of traditions the world wants to protect for ever.

TOPIC 1.3

A game you already know

Hopscotch: played for **almost two thousand years**, with a different name in nearly every country.

Let's find out

A game passed down from grown-ups to children for a very long time is a **traditional** game. Nobody bought it. Somebody just showed somebody else.

If nobody wrote the rules down, how did hopscotch travel around the world?

No answer in this book. How do YOU learn a playground game?

★ MY NEW WORDS

**game**

we play it

**rules**

how to play

**fair**

the same for all

**world**

everywhere

TOPIC 1.4

Why do we exercise?

Let's find out

Exercise is moving your body enough to make it work hard. You do not need a gym. Running, dancing, climbing, swimming and cycling all count.

When you run and play, your body gets busy

Heart beats faster to push blood around

Lungs take bigger, quicker breaths

Muscles get warm and grow stronger

Bones grow stronger too

Skin sweats to cool you down

Did you know?

Doctors everywhere agree that children need about **60 minutes** of moving about every day.

TOPIC 1.4

Find your heartbeat

Jump twenty times, then find your heartbeat again.

wake
up

Sit very still. Put your hand flat on your chest. Can you feel a soft thump? That is your **heart**.

1 Sit still and feel your heart. Is it slow or fast? **Circle one.**

2 Now jump up and down twenty times. Count out loud together.

3 Feel your heart again. What changed?

My heart is beating faster because...

sitting still

after jumping

Draw your face in each box. Before, and after.

TOPIC 1.5

Playing safely

Helmet on, pads on, water bottle full. Now the fun can start.

Let's find out

Getting ready keeps you playing. Four things help every time:

1. **Warm up** first, so your muscles are ready.
2. **Wear the right kit**, especially a helmet on wheels.
3. **Drink water** before you are thirsty.
4. **Tell a grown-up** if something hurts.

A warm-up wakes your muscles up slowly, so they do not get a shock.

Which of the four things do you forget most often?

TOPIC 1.5

Safe or not safe?

Look at each one. Say **safe** or **not safe** out loud, then tick or cross the box.

**helmet on a bike**

tick or cross

**drinking water**

tick or cross

**resting when tired**

tick or cross

**warming up first**

tick or cross

★ Big thinking

Your friend falls over in the playground and their knee is bleeding.
What are the first two things you do? Say them in order.

- 1 Draw one safety rule, big and clear, with no writing. Can others guess it?

my safety rule

TOPIC 1.6

Teamwork in sports

A huddle before the match. Everybody in, nobody left out.

Let's find out

A **team** is a group who all want the same thing. The player who passes matters as much as the one who scores. A goal usually has three or four helpers hidden inside it.

A **pass**. One player gives the ball to another on purpose, because together they are stronger.

wake
up

Pass the clap. Stand in a circle. Clap once and turn to the next person. Keep it going without a gap. That is a team.

TOPIC 1.6

What makes a good team mate?

1 Colour the star beside each thing a good team mate does.

- ☆ passes the ball, even when they could shoot
- ☆ *says well tried* when someone misses
- ☆ lets the smallest player have a turn
- ☆ shakes hands at the end, win or lose
- ☆ tells the truth about a close call

 Two ways of seeing

Sofia says

Put the fastest runners in our team so we win.

Tomás says

Mix the teams up. Then every game is close.

Which team would you rather play in?

★ **MY NEW WORDS**

team

fair

practise

TOPIC 1.7

Sports in our community

A small club near home: a coach, some benches, families watching, and a pitch that everybody shares.

Let's find out

Your **community** is the people who live near you. A club needs more than players: a coach, someone to wash the kit, someone to line the pitch, and people to cheer.

1 Name a place near your home where people play sport.

A park, a pitch, a pool, a square, a beach.

2 Draw it, and put yourself in the picture.

where we play near home

TOPIC 1.8

Different people, different sports

Wheelchair basketball, a running blade, and a guide runner. Same effort, same cheering, same medals.

Let's find out

Bodies are all different, so sport changes shape to fit them. A blind runner runs beside a **guide**, joined by a short tether. A wheelchair player shoots at a hoop that stays exactly as high.

Did you know?

The first **Paralympic Games** were held in Rome in **1960**. About **400 athletes** came from **23 countries**. Now thousands come, and millions of people watch.

TOPIC 1.8

Sport for everyone

Five rings, five parts of the world,
all joined together.

The five Olympic rings. They stand for the five parts of the world where people live, all joined together. They were designed in **1913**.

★ Big thinking

A new child joins your class. They use a wheelchair, and your class is about to play tag. **How do you change the game so everyone can play?** Think of two ways.

**Is it more important that a game is fair,
or that everybody can join in?**

Nobody agrees about this, not even grown-ups. Say what you think, and listen to somebody who thinks the opposite.

TOPIC 1.9

Recreation and free time

Free time does not have to be noisy. All of this counts.

Let's find out

Recreation is a big word for a simple thing: what you choose to do when nobody has told you what to do. Sport counts. So does reading, drawing, or building a den.

1

Draw the thing you do in your free time that makes you happiest.

my favourite free time

Does your best friend choose the same thing?

TOPIC 1.10

Weather and sports

Sun and rain. Two different playtimes.

Snow. A whole new set of games.

Let's find out

Weather decides a lot about play. Snow gives you sledding. Wind gives you kites. Hot sun means a hat, water, and shade. Rain sends most games indoors, but not all of them.

Two ways of seeing

Ana says

Rain spoils everything. No football today.

Kofi says

Rain is the best. We play in the puddles and our plants drink.

Same rain. Two true answers.

TOPIC 1.11

Healthy habits through sports

Four habits that help your body as much as running does.

Let's find out

A **habit** is something you do so often you stop having to remember it. Moving, water, fruit and sleep all work together.

1

Copy each word onto the line beside its picture.

healthy

water

exercise

stretch

→ One step more

Choose one habit. Colour a square each day you manage it.

--	--	--	--	--

OUR CLASS PROJECT

We will hold a sports day

Everything here was made by the class: the medals, the banner, even the relay baton.

- 1 Choose four games.** One indoor, one outdoor, one traditional game from this unit, and one the class invents.
- 2 Make it fair.** Mix the teams so every team has fast and careful players. Agree the rules out loud before you start.
- 3 Make the kit.** Paper medals, a banner, and a card for each game with a drawing of how to play it.
- 4 Warm up, play, then thank everyone.** Shake hands with every team, whatever the score.

HOW DID IT GO?

Think about your sports day

Colour one circle in each row. Green means *yes, easily*. Yellow means *nearly*. Red means *not yet, and that is fine*.

I joined in with every game

I helped make the teams fair

I warmed up before I played

I said something kind to a team mate

I shook hands at the end

 **Say it out loud**

The best moment of our sports day was...

UNIT 1 REVIEW

Now I can

- ☐ name my favourite sport and game
- ☐ say which games I play indoors and outdoors
- ☐ name a traditional game from another country
- ☐ say two things exercise does inside my body
- ☐ get ready to play safely
- ☐ explain why a team needs every player
- ☐ say how sport changes so everybody joins in

My new words from Unit 1

sport

game

team

rules

indoor

outdoor

win

fair

exercise

healthy

safe

practise

UNIT 1

Your first passport stamp

You have finished Unit 1. Colour the postmark to stamp your passport.

★ Big thinking, before you go

Ana in Lisbon plays football in a square. A child in Mongolia rides a horse. A child in Canada skates on ice. **Why do children in different places play different games?**

★ WORDS I CAN READ NOW

world

country

map

stamp

CHALLENGE 2 • RICH AND POOR

What does everybody need?

Needs, wants, homes, jobs and helping each other.

Look and think

Choose and say why

Talk and listen

Work together

1 • ASK

What is one thing every child needs to stay well?

2 • CLASS CHART • NEED OR WANT?

Teacher reads five things. Colour a cell under Need or Want. Talk about the pattern.

Need

must have

Want

nice to have

3 • CHOOSE A SOURCE

Kofi's letter about water helps me understand...

needs

toys

screens

4 • MY OPINION

If I could give every child one need first, I would choose...

A vibrant illustration of a village scene. In the background, children are at a market stall with baskets of oranges and cucumbers. One boy is handing an orange to a girl. Another boy carries a basket of oranges, and a girl carries a basket of green grapes. In the distance, a boy is filling a large blue pot at a public water tap. In the foreground, a group of six children are sitting around a table, sharing a meal. The table is set with a blue cloth and features several bowls of food: a large bowl of rice and vegetables, a bowl of fruit (oranges and apples), a bowl of green salad, a plate of flatbread, and a plate of watermelon slices. The children are dressed in traditional clothing from various cultures, including a pink hijab and a white turban. The scene is set in a sunny outdoor environment with simple buildings and a palm tree in the background.

UNIT

2

Rich and poor

What every person needs, and what is only nice to have.

● What we need to live

● Needs and wants

● Homes around the world

● Jobs and families

● Helping together

● Saving and spending

GET STARTED

What does everybody need?

Water, food, a home, and someone to care for you. Every child on Earth needs these four things.

Look who's here!

Some families have a lot of money. Some have very little. But **every single person** needs the same few things to stay alive and well. **Point at the four things in the picture.**

🚩 In this unit you will

- ✓ name the things every person needs
- ✓ tell the difference between a need and a want
- ✓ look at homes in four different countries
- ✓ find out how grown-ups' jobs help families
- ✓ see how neighbours help each other
- ✓ learn what saving money means

TOPIC 2.1

What do we need to live?

 A letter from Kofi, in Ghana

Dear friend,

Every morning I fetch water with my sister before school. The tap is at the end of our road. I can carry a full jug now without spilling it. My grandmother says I am the best water carrier in the family.

From Kofi

 Let's find out

A **need** is something you must have to live and stay well. Clean water, food, a home, warm clothes, someone to care for you, and school. Nobody can do without them.

★ **WORDS FOR WHAT WE NEED**

water

food

home

need

TOPIC 2.1

Six things everybody needs

water

food

home

care

school

clothes

wake
up

Point and name. Say all six out loud together. Now cover them up. How many can you remember?

1

Copy each word onto the line beside its picture.

water

.....

food

.....

home

.....

school

.....

TOPIC 2.2

Needs and wants

Two piles. One pile you cannot live without. The other pile is lovely, but you can.

Needs

- ☐ clean water
- ☐ food
- ☐ a home
- ☐ warm clothes
- ☐ someone to care for us
- ☐ school

Wants

- ☐ toys
- ☐ sweets
- ☐ a games console
- ☐ a scooter
- ☐ stickers
- ☐ a party dress

A need is something we must have to live and stay well.

A want is something lovely that we can live without.

Needs and wants. Read each list out loud with a grown-up.

Let's find out

A **want** is something you would like but do not need. Wanting things is not naughty. Everybody wants things. But if money is short, a family buys the **needs** first.

TOPIC 2.2

Sort them out

Look at each picture. Say **need** or **want** out loud, then draw it into the right box.

**water****a toy****food****sweets****I need it****I want it****👁 Two ways of seeing****Bea says**

I need new trainers. Mine have a hole.

**Her mum says**

You need dry feet. You want the ones with lights on.

They are both talking about the same trainers.

TOPIC 2.3

Different homes around the world

A home keeps you warm, dry and safe. But homes look very different, because the weather and the land are different too.

 Find it on the map

Homes in different places

Is it hot or cold where you live? Does it rain a lot? How does that change what your home is like?

TOPIC 2.3

Four homes, four good reasons

A yurt, Mongolia. Thick felt walls keep the cold out, and the whole home can be packed up and moved.

A stilt house, South East Asia. Tall legs keep the rooms dry when the river rises.

An earth house. Thick mud-brick walls stay cool inside when the sun is fierce.

A block of flats. Many homes stacked up, so lots of families can live close to work.

★ **Big thinking**

Why would a yurt be a **bad** home beside a river that floods? Why would a stilt house be a **bad** home on the cold grasslands?

TOPIC 2.3

My home

- 1 Draw your home from the outside. Put the door where the real door is.

my home

- 2 Draw the one place in your home where you feel happiest.
A bed, a chair, a step, a corner, a lap.

my favourite place

★ MY NEW WORDS

home

need

want

neighbour

TOPIC 2.4

Jobs and helping families

Five jobs, five families. Every one of these grown-ups is looking after somebody.

Let's find out

Most grown-ups do a **job**. A job earns money, and the money buys the family's needs. Some jobs are done at home and earn no money at all, like caring for a baby or a grandparent. Those are jobs too.

- 1 Name a job somebody in your family does. Say one thing it helps with.

TOPIC 2.4

Children help too

Sweeping, carrying, feeding the chickens, laying the table. Real help, done by children.

1 Which of these do you already do at home? Tick them.

- ☐ tidy my own things away
- ☐ help lay or clear the table
- ☐ look after a younger child or a pet
- ☐ carry something for somebody

→ **One step more**

Choose one new way to help this week. Draw it here.

TOPIC 2.5

Communities helping together

Nobody could carry all of this alone. Passed hand to hand, it takes ten minutes.

Let's find out

When people share a job out, hard things become easy. A **community** that helps together can build a garden, share food, or look after somebody who is ill.

Did you know?

In Ghana, some people save money together in a group called a **susu**. Everybody puts a little in, and each week one person takes the pot home.

TOPIC 2.5

Sharing makes more

Sharing food. Volunteers pack bags for neighbours.

Sharing a rope. Two turn it, one jumps, then they swap.

If you had one apple and three hungry friends, what would you do?

There is no answer printed here. Say your idea, then listen to three other people's ideas.

★ MY NEW WORDS

share

help

community

together

TOPIC 2.6

Saving and spending wisely

One coin at a time. The chart on the wall shows how close she is getting.

Let's find out

To **spend** is to swap money for something now. To **save** is to keep money for later. Saving is harder, and it is how people get the bigger things.

Did you know?

A **piggy bank** is not named after a pig. Long ago, people kept coins in jars made of an orange clay called *pygg*. The name stuck, and later somebody made one shaped like the animal as a joke.

Have you ever saved up for something? How long did it take?

TOPIC 2.6

Choosing carefully

One coin, two choices. Bananas for everybody, or a small toy for one person.

👁️ **Two ways of seeing**

Duarte says

Buy the toy. I have wanted it for weeks.

Nuno says

Buy the fruit. Then all four of us get some.

Same coin. Which would you choose, and why?

★ **MY NEW WORDS**

save

spend

coin

enough

OUR CLASS PROJECT

A kindness shop

Everything in this shop is free. It is paid for with helping.

- 1 Make the shop.** A table, and things the class no longer needs: books, puzzles, outgrown clothes, toys.
- 2 Make the money.** Each child earns a paper coin for every kind or helpful thing they do.
- 3 Open the shop.** Spend your coins, or save them for next week.
- 4 Talk about it.** Was it hard to save? Did anybody give their coins away?

HOW DID IT GO?

Think about Unit 2

I can name four things everybody needs

I can tell a need from a want

I know why homes look different

I helped somebody this week

I saved something instead of spending it

☐

name the things every person needs

☐

tell a need from a want

☐

say why homes are different around the world

☐

explain what saving means

Looking back

A revision fair. Six tables, six games, everything you learnt this term.

Six tables to visit

1. **The game table.** Teach somebody oware or hopscotch.
2. **The moving table.** Twenty jumps, then find your heartbeat.
3. **The safety table.** Put the kit on the right body part.
4. **The needs table.** Sort the cards into needs and wants.
5. **The homes table.** Match each home to its weather.
6. **The sharing table.** Share nine counters between four people.

Which table was easiest? Which one surprised you?

My best work

Your folder. Everything you made this term lives in it.

What goes in my folder

Choose your **best three** pieces from this term. Stick them in, or draw them again here. Then tell a grown-up why you chose each one.

one

two

three

Talk about your work

I chose this one because... The hardest part was... Next time I would...

Things we did together

Autumn term. Leaves, conkers, and the harvest table.

Our autumn

Draw or stick in a picture of something the whole class did this term: a sports day, a harvest table, a walk, a visitor, a birthday.

our best day this term

1 Write the name of one person who helped you this term.

CHALLENGE 3 • DIGITAL WORLD

How do we stay kind with screens?

Devices, safety, kindness and balanced days.

Choose and say why

Look and think

Talk and listen

Look back

1 • ASK

When is a screen helpful? When should it sleep?

2 • CLASS PICTOGRAM • SCREENS IN OUR HOMES

How many screens did you count at home last night? Colour one cell in that number column (adult helps).

				
1	2	3	4	5+

3 • CHOOSE A SOURCE

Best place to learn “stop and tell”?

class poster

a story

a grown-up

4 • MY OPINION

A kind message online is...

as real as face to face

not important

UNIT

3

Digital world

Screens, robots, and how to be safe and kind.

● What is digital?

● Devices around us

● Technology worldwide

● Learning with technology

● Staying safe online

● Being kind online

● Screen time

● Future technology

GET STARTED

Screens are everywhere

How many screens can you count in this one room?

Look who's here!

Screens can teach you, show you a faraway grandparent, and play you a song. They are useful **and** they need rules. **Point at every screen you can find.**

🚩 In this unit you will

- ✓ name the digital devices around you
- ✓ find out how a message crosses the world
- ✓ learn three rules for staying safe online
- ✓ practise being kind on a screen
- ✓ work out what a balanced day looks like
- ✓ design a machine that helps somebody

TOPIC 3.1

What is the digital world?

Tap a screen, and something travels. That travelling is the digital world.

Let's find out

Something is **digital** when it is turned into a signal that a machine can carry. Your voice, a photograph, a drawing and a song can all be turned into signals and sent anywhere.

Not digital, and still useful

A paper book, a pencil, a hug and a football are not digital. They do not need electricity, they never run out of battery, and nobody can switch them off.

TOPIC 3.1

Digital, or not digital?

Look at each one. Say **digital** or **not digital**, then sort them.

Digital**a tablet****a phone****Not digital****a book****a pencil**

★ MY NEW WORDS

**digital****device****screen****internet**

TOPIC 3.2

Digital devices around us

A **device** is a machine that does a job for you.

Let's find out

Some devices you hold, like a phone. Some you sit at, like a computer. Some you hardly notice, like the clock on the oven or the card reader in a shop.

1

Copy each word onto the line beside its picture.

**screen**

.....

**robot**

.....

**camera**

.....

**message**

.....

TOPIC 3.3

Technology around the world

Not everybody has the same machines. But people everywhere find clever ways to use what they have.

 Find it on the map

A message can go anywhere

 Did you know?

Most messages that cross an ocean do not fly. They race along **cables lying on the seabed**, thousands of kilometres long.

TOPIC 3.3

Four places, four ways

A city flat, a village tree, a hospital, a farm. All four are using technology.

A message can cross the whole world in less than one second.

Follow the five steps with your finger.

Who is the furthest-away person you have ever spoken to?

TOPIC 3.4

Learning with technology

Two children, one tablet. Sharing a screen means talking about it.

Let's find out

A screen can show you a volcano, read you a story, or let you hear a language from the other side of the world. It cannot teach you to ride a bicycle, tie a lace, or be a good friend. Those need your body and other people.

Did you know?

The very first big electronic computer, built in **1945**, filled a whole room and weighed about **30 tonnes**. A tablet does far more and fits in your hands.

TOPIC 3.5

Staying safe online

Stop

my full name
where I live
my school
my photo
my password

Ask

can I click this?
can I download this?
can I answer this?

Go

play a game a grown-up chose
call someone I know
tell a grown-up if it feels wrong

The three big rules

1. Keep your name, home and school to yourself. **2.** Ask before you click, download or answer. **3.** If anything feels wrong, **tell a grown-up you trust.** You will never be in trouble for telling.

TOPIC 3.5

What would you do? **Talk about each one**

There is no answer printed here. Say what you would do, then hear what somebody else would do.

- 1** A game asks for your full name and where you live.
- 2** A message pops up saying you have won a prize.
- 3** Somebody you do not know asks to be your friend.
- 4** You see a picture that makes you feel funny inside.

★ **MY NEW WORDS****password****online****kind**

TOPIC 3.6

Being kind online

A kind message is just as real as a kind face.

Let's find out

On a screen you cannot see somebody's face, so you cannot tell how your words landed. That is why the rule is simple: **if you would not say it out loud to their face, do not type it.**

Unkind message? Do not answer. Show a grown-up. **Kind message?** Say thank you.

Is it easier to be unkind when you cannot see somebody's face?

Grown-ups argue about this too.

TOPIC 3.7

Screen time control

A good day has room for lots of different things.
A screen is only one small slice of it.

Three helpful habits

Agree how long **before** you start. Stop at the end of the timer, not the end of the game. And screens go to sleep before you do.

TOPIC 3.7

My balanced day

A tablet asleep downstairs, and a paper book in bed.

1 Draw two things you did today that were **not** on a screen.

one

two

Which one would you miss more if it disappeared tomorrow?

TOPIC 3.8

Designing the technology of the future

Cardboard, bottle tops and tape. Every real invention started as something like this.

Let's find out

Every machine was somebody's idea first. The best ideas start with a question: **who is finding something hard, and could a machine help?**

A helper robot fetching a drink. Real robots already do jobs like this in some hospitals.

TOPIC 3.8

Invent a helping machine

- 1 Think of one person who finds something hard. Design a machine that helps them. Draw it, and give it as many buttons as you like.

my helping machine

★ Big thinking

Tell the class three things about your machine: **who** it helps, **what** it does, and **what it is called**.

★ MY NEW WORDS

robot

charge

timer

device

OUR CLASS PROJECT

A safe screens poster

Made by the class, for the classroom wall.

- 1 Agree the rules.** As a class, choose the three most important online rules.
- 2 Draw them.** One rule each, drawn big, with no writing. A picture everybody can read.
- 3 Make the traffic light.** Sort the drawings under Stop, Ask and Go.
- 4 Teach somebody.** Show a younger class, or a grown-up at home.

HOW DID IT GO?

Think about Unit 3

I can name four digital devices

I know the three online safety rules

I know who to tell if something feels wrong

I sent somebody a kind message

I stopped when my screen time ended

- ☐ say what the word digital means
- ☐ name the devices around me
- ☐ keep my name and address to myself
- ☐ tell a grown-up if something feels wrong
- ☐ design a machine that helps somebody

CHALLENGE 4 · IMPROVING COMMUNICATION

How do we talk and listen well?

Words, listening, feelings, signs and solving problems with talk.

Talk and listen

Work together

Look and think

Look back

1 · ASK

What helps you listen right to the end?

2 · PARTNER CHECK · TALK AND LISTEN

With a partner: one speaks for 20 seconds about a favourite game. The other asks one simple question. Swap.

I spoke about...

My question was...

3 · CHOOSE A SOURCE

Which source shows communication without spoken words?

sign language picture

a shopping list

4 · MY OPINION

When feelings are big, the best first step is...

breathe

shout

run away only

UNIT

4

Improving communication

Talking, listening, and saying how you feel.

● What is communication?

● Speaking and listening

● Without words

● Feelings

● Around the world

● Solving problems

● Digital messages

GET STARTED

So many ways to say something

Talking, waving, pointing, hugging, signing, drawing. All of these are communication.

Look who's here!

Every child in this picture is telling somebody something, and only some of them are using their voice. **Point at three different ways of communicating.**

🚩 In this unit you will

- ✓ find out what communication really means
- ✓ practise listening right to the end
- ✓ read a face and a body without any words
- ✓ name what you are feeling
- ✓ learn how people send messages far away
- ✓ solve a falling-out by talking

TOPIC 4.1

What is communication?

☐ A letter from Mira, in Australia

Dear friend,

My school is very far away, so I have my lessons through a screen. My teacher lives four hours' drive from my house. When I put my hand up, she can see it. My dog sits under my desk the whole time.

From Mira

Let's find out

Communication is getting something out of your head and into somebody else's. It needs two people: one who sends, and one who receives. If nobody receives it, the message has not arrived.

Did you know?

Australia really has a **School of the Air**. It started in **1951**, using radios, so children on faraway farms could join a class.

TOPIC 4.1

Mira's classroom

A lesson on a veranda, hundreds of kilometres from the school.

👁️ **Two ways of seeing**

Mira says

School on a screen is normal. I can see my dog all day.

Ana says

I would miss playing at break with everybody.

Both are telling the truth about their own school.

★ **MY NEW WORDS**

talk

listen

word

message

TOPIC 4.2

Speaking and listening

One speaking, one listening. Notice that their eyes have met.

Let's find out

Listening is not just being quiet. A good listener **looks** at the person, waits until they have finished, and can say afterwards what they heard.

wake
up

Copy me. A partner claps a short pattern. You clap it back. Now try it with your eyes closed.

A speaking stone. Whoever holds it talks, and everybody else listens.

TOPIC 4.2

Listen right to the end

- 1 **Tell and tell back.** Tell your partner about your morning. Then they tell it back to you. Did they get it right?
- 2 **The long pause.** When your partner stops talking, count to two in your head before you answer.

 A good listener

- ☆ looks at the person talking
- ☆ keeps their mouth still until the end
- ☆ asks a question afterwards
- ☆ does not say *that happened to me too* straight away

★ **WORDS FOR LISTENING****quiet****loud****question**

TOPIC 4.3

Talking without words

Six children, six feelings, and not one single word.

Let's find out

Words that come out of your mouth are **verbal**. Everything else is **non-verbal**: your face, your shoulders, your hands, how close you stand, and whether you look up or down.

wake
up

Faces only. Show happy, then cross, then surprised, then shy. Your partner guesses each one. No sounds allowed.

TOPIC 4.3

Hands that talk

Sign language. A full language, made with hands and faces.

Braille. Reading with fingertips, using raised dots.

**Did you know?**

Louis Braille was only **15 years old** in 1824 when he invented the alphabet of raised dots that millions of people read today.

→ One step more

Learn to sign *hello*, *thank you* and your own name. Teach them to somebody at home.

TOPIC 4.4

Feelings and communication

A feelings wheel. Point at the one that fits you right now.

Let's find out

Feelings are easier to handle once they have a **name**. *I feel cross* is much more useful than shouting, and much more useful than saying nothing at all.

A sentence that always works

I feel because

TOPIC 4.4

When a feeling is big

Breathe in slowly, and out even more slowly. Do it three times.

1 Draw your face when you feel **happy**, and when you feel **cross**.

happy

cross

★ WORDS FOR FEELINGS

feeling

smile

sorry

kind

TOPIC 4.5

Communication around the world

Find it on the map

Ways of sending a message

A talking drum, a lighthouse, a bicycle postman, a satellite dish. Four ways to reach somebody far away.

Did you know?

There are about **7,000 languages** in the world. Many of them are spoken by only a few hundred people.

TOPIC 4.5

Letters still travel

A letter takes days instead of seconds. That is part of why getting one feels so good.

- 1 Draw a postcard for somebody in your family. Draw the picture on this side.

You can post it, or hand it over yourself.

my postcard

★ WORDS FOR SENDING

letter

stamp

postbox

language

TOPIC 4.6

Solving problems through communication

They both wanted the ball. Now the ball is waiting while they sort it out.

Four steps that work

1. **Stop.** Hands down, no grabbing.
2. **Say** how you feel and why.
3. **Listen** while the other person says theirs.
4. **Find** an idea you both agree to.

Sorry is a small word that does a very big job.

TOPIC 4.6

You try it

 **Act it out with a partner**

Use the four steps. There is no printed answer: your class will find several good ones.

- 1** Two of you want the same seat.
- 2** Somebody knocked your model over by accident.
- 3** Your friend will not let you join their game.

Is saying sorry enough on its own?

Talk about it. What else might somebody need?

TOPIC 4.7

Digital communication

A grandparent hundreds of kilometres away, right there on the screen.

Let's find out

A screen carries your voice and face in less than a second. What it cannot carry is a hug, a smell, or the feeling of somebody sitting beside you.

Did you know?

The first set of **emoji** was drawn in **1999** in Japan, and had only **176** little pictures. Now there are more than **3,700**.

OUR CLASS PROJECT

A class post office

A box, some paper, and everybody writing to everybody.

- 1 Build the postbox.** A cardboard box with a slot, painted red.
- 2 Make stamps.** Everybody designs their own, with pictures and no writing.
- 3 Write kind post.** Draw a card for one classmate, saying one true kind thing about them.
- 4 Deliver it.** Take turns being the postal worker, so everybody receives something.

HOW DID IT GO?

Think about Unit 4

I listened right to the end

I can name what I am feeling

I can read a face without words

I used the four steps to sort out a problem

I sent somebody kind post

- ☐ say what communication means
- ☐ show I am listening
- ☐ read a face and a body
- ☐ say *I feel ... because ...*
- ☐ name two ways of sending a message far away

Looking back

The revision fair again, with a technology corner and a talking corner.

Six tables to visit

1. **The device table.** Sort the cards: digital or not digital.
2. **The safety table.** Put each card under Stop, Ask or Go.
3. **The balance table.** Build a good day out of slices.
4. **The faces table.** Guess the feeling with no words.
5. **The listening table.** Tell it, then tell it back.
6. **The sorting-out table.** Act out the four steps.

Which table would you like to run yourself?

My best work

Your folder is getting fatter. That is the whole idea.

What goes in my folder

Choose your **best three** pieces from this term: a safety poster, a helping machine, a postcard, a feelings face.

one

two

three

Talk about your work

This one taught me... I am proud of... I would like to try...

A note to your grown-up

Ask me about the thing I made this term. I can explain all of it by myself.

Things we did together

Spring term. Seeds, blossom, and things beginning to grow.

Our spring

Draw or stick in something the class did this term: a visitor, a trip, a performance, a planting day.

our best day this term

1

Write the name of one new thing you can do now.

CHALLENGE 5 · MOVING GOODS AND PEOPLE

How do we move people and things?

Journeys, goods, safety and kinder travel.

Ask and find out**Look and think****Choose and say why****Work together****1 · ASK**

How did you travel to school today?

2 · CLASS PICTOGRAM · HOW WE CAME TO SCHOOL

walk	bus	car	bike	other
--	---	---	--	---

3 · CHOOSE A SOLUTION

To make a short journey kinder to the air, we could...

walk

share a car

always go alone by car

4 · MY OPINION

The most important travel rule is...

UNIT

5

Moving goods and people

How you get to school, and how a banana gets to your shop.

● Ways we travel

● Moving goods

● Land, water, air

● Safe travel

● Around the world

● Helping the air

● Community helpers

● Future transport

GET STARTED

Everybody is going somewhere

Walking, wheels, rails, water and sky. All of these are transport.

Look who's here!

Every single day, people and things move about: to school, to work, and from farms to shops. **Point at the way you came to school today.**

🚩 In this unit you will

- ✓ name lots of ways to travel
- ✓ follow a banana from a farm to your shop
- ✓ sort transport into land, water and air
- ✓ learn the rules for crossing a road
- ✓ find out how travel changes our air
- ✓ design the transport of the future

TOPIC 5.1

Ways we travel

Five children arriving at the same school at the same time, five different ways.

Let's find out

A **journey** is going from one place to another. Some journeys take two minutes, and some take a whole day. No way of travelling is better than another. It depends where you live.

- 1 Draw your own journey to school. Put your home at one end and school at the other.

my journey to school

TOPIC 5.1

Our class journey chart

Ask everybody how they came to school. Colour one box for each person.

**How we came today****walk****bike****bus****car**

Which way did most people come? Which way did the fewest?

★ MY NEW WORDS

**travel****walk****road****ticket**

TOPIC 5.2

Moving goods

✉ A letter from Lars, in Rotterdam

Dear friend,

My city has the biggest port in Europe. From my window I can count the cranes lifting metal boxes off the ships. My father says one of those boxes might hold the shoes I am wearing.

From Lars

🔍 Let's find out

Goods are things that get bought and sold: food, clothes, toys, wood, medicine. Almost nothing in your home was made in your street. Nearly everything travelled to get to you.

🌍 Did you know?

In **1956** a man called Malcolm McLean sent a ship carrying just **58** metal boxes. That simple idea changed how the whole world moves things.

TOPIC 5.2

The journey of a banana

Some bananas travel more than 8,000 kilometres before they reach a shop in Portugal.

Follow the five steps with your finger and say each one out loud.

Picked, loaded, shipped, driven, and finally sold.

★ Big thinking

Choose something in your lunch box. **How many journeys** do you think it made before it reached you?

→ One step more

At home, find one food that grew far away and one that grew near you. Bring both names to school.

TOPIC 5.3

Land, water and air transport

In the air

aeroplane

helicopter

hot-air balloon

On the water

ferry

cargo ship

canoe

On the land

bicycle

bus

train

lorry

Three ways to get about. Read each band out loud.

Land, water and air, all in one picture.

TOPIC 5.3

Sort them out

Say **land**, **water** or **air** for each one, then draw it into the right box.

train

boat

aeroplane

lorry

land

water

air

★ MY NEW WORDS

train

boat

aeroplane

goods

TOPIC 5.4

Safe travel

Stop at the kerb. Look. Listen. Hold a hand.

● Crossing a road

1. **Stop** at the kerb, before the road.
2. **Look** both ways, then look again.
3. **Listen**, because you often hear a car first.
4. **Walk** straight across, still looking. Never run.

In a car, the belt goes on before the engine starts.

TOPIC 5.4

Safe or not safe?

using the crossing

tick or cross

helmet on the bike

tick or cross

👁️ **Two ways of seeing**

Lars says

I cycle to school on a proper cycle path. It is completely normal.

Ana says

My road is far too busy. I go on the bus with my brother.

Both children are being sensible where they live.

★ **WORDS FOR SAFE TRAVEL**

crossing

safe

bus

TOPIC 5.5

Transport around the world

 Find it on the map

How things reach our shops

 Did you know?

The fastest passenger train in the world, in Shanghai, has reached **431 kilometres an hour**. It floats just above its track using magnets.

TOPIC 5.5

A country of bicycles

A cycle path in the Netherlands at going-home time.

Did you know?

In the **Netherlands** there are **more bicycles than people**: about **24 million** bikes for about **18 million** people.

Would your street be better with more bicycles and fewer cars?

People in real towns argue about exactly this. What would change for you?

TOPIC 5.6

Helping the environment

A quiet electric bus, a new cycle path, and a tree being planted.

Let's find out

Most engines burn fuel, and that dirties the air we all breathe. Walking, cycling and sharing a bus or train put much less dirt into the air than everybody driving alone.

A walking bus. One grown-up, one long rope, and a whole line of children.

TOPIC 5.6

One small change

- 1** Choose one journey your family could make on foot, by bicycle or by bus instead. Draw it.

our one small change

→ **One step more**

Try it once this week. Was it slower, faster, or about the same?

★ WORDS FOR OUR AIR

bicycle

walk

bus

road

TOPIC 5.7

Community helpers and transport

An ambulance, a fire engine, a postal bicycle, a refuse lorry, a lifeboat. Every one is somebody coming to help.

Let's find out

Some vehicles exist only so that people can be helped quickly. When you hear a siren, that is somebody on their way to an emergency, and every other vehicle should move aside.

1

Name one community helper you have seen near your home. What were they doing?

Match the vehicle to the job

Draw a line from each vehicle to what it is for.

ambulance

fire engine

refuse lorry

takes away our rubbish

puts out fires

helps someone who is ill

TOPIC 5.8

Design future transport

A solar school bus, a flying bicycle, a pod on a rail. All made of cardboard first.

Three questions for a designer

Who will travel in it? **What** makes it move without dirtying the air?

How do people get safely in and out?

- 1 Design a vehicle for the year 2050. Draw it, and show what makes it go.

my future vehicle

OUR CLASS PROJECT

A floor map of our journeys

Every child's journey, on one enormous map.

- 1 Make the map.** Join big sheets of paper. Draw the school in the middle, then the roads, the river and the park.
- 2 Add your home.** Everybody draws their own house somewhere on the map.
- 3 Draw your journey.** A dotted line from your house to school, in the colour of how you travel.
- 4 Count the colours.** Which way do most of you travel? Who lives furthest away?

HOW DID IT GO?

Think about Unit 5

I can name six ways to travel

I can sort transport into land, water and air

I know the four steps for crossing a road

I can follow a banana from farm to shop

I made one journey a greener way

- ☐ name lots of ways of travelling
- ☐ sort transport into land, water and air
- ☐ cross a road safely with a grown-up
- ☐ say how goods reach my shop
- ☐ name one way to help our air

CHALLENGE 6 · FAMILY, FRIENDS, COMMUNITY AND CULTURE

Who do we belong to?

Families, friends, community, celebrations and respect.

Look and think

Choose and say why

Work together

Talk and listen

1 · ASK

Who is one person you belong with (family, friend or class)?

2 · CLASS CHART · WAYS WE CELEBRATE

Each child ticks one column. Talk: why are there different celebrations?

food

music

lights

stories

other

3 · CHOOSE A SOURCE

Best source for learning about a celebration you do not know?

a classmate

a photo

guessing only

4 · MY OPINION

Respect looks like...

UNIT

6

Family, friends, community and culture

Who you belong to, and how the world celebrates.

● My family

● Families worldwide

● Being a good friend

● School and community

● A caring community

● Celebrations

● Respecting cultures

GET STARTED

Who do you belong to?

One street, many families, one very long table.

Look who's here!

You belong to a family. You also belong to a class, a school, a street and a country. **Point at yourself in this picture.** Where would you be?

🚩 In this unit you will

- ✓ draw your own family, whatever shape it is
- ✓ see that families come in many shapes everywhere
- ✓ work out what makes somebody a good friend
- ✓ find out who helps in your local community
- ✓ learn about celebrations in other countries
- ✓ put on a World Fair with your class

TOPIC 6.1

My family

A family is the people who look after each other.

Let's find out

A **family** is not a number and not a shape. It is the people who care for you, eat with you, and turn up when you need them. Some families are big and noisy. Some are two people and a cat.

- 1 Draw everybody who lives in your home. Include the pets.

my family

TOPIC 6.1

My family tree**The oldest people in my family**draw and name
.....draw and name
.....draw and name
.....**The grown-ups who look after me**draw and name
.....draw and name
.....**Me, and anyone I grew up with**draw and name
.....draw and name
.....draw and name
.....

Your own family tree. The oldest people go at the top. Draw and name whoever belongs in each box, and leave any box empty if you need to.

Who is the oldest person in your family? What is one story they have told you?

TOPIC 6.2

Different families around the world

Five families. Every one of them is a real, whole, ordinary family.

Let's find out

In some countries, grandparents, aunts, uncles and cousins all live in one house together. In others, a family is two or three people. All of these are families, and none of them is the wrong sort.

Two ways of seeing

Priya says

Nine of us live in our house. It is never, ever quiet.

Tomás says

There are two of us. We can hear the clock ticking.

Both of them are at home.

TOPIC 6.3

Being a good friend

Helping up. Nobody had to ask.

Sharing. One umbrella, two friends, both a bit wet.

✓ What a good friend does

- ☆ asks you to join in
- ☆ listens when you are sad
- ☆ tells you the truth kindly
- ☆ says sorry and means it
- ☆ is pleased when something good happens to you

- 1 Draw something kind a friend did for you. Then tell them about it.

TOPIC 6.4

Our school and local community

A whole school, cut open. Count how many grown-ups it takes.

Let's find out

Your school is a community. So is your street. A community works because lots of people each do a small part: teaching, cooking, cleaning, driving, mending and caring.

- 1 Name three grown-ups who help at your school, and say what each one does.

TOPIC 6.4

My local community

A baker, a library, a surgery, a park, a bus stop, a fire station.

1 Draw the place in your community you like best.

my favourite place near home

★ MY NEW WORDS

school

community

neighbour

welcome

TOPIC 6.5

Working together to build a caring community

One afternoon, one park, everybody a bit muddy.

Let's find out

A **caring** community notices who needs something. It might be a neighbour who cannot carry their shopping, a new child with nobody to play with, or a park that has gone scruffy.

1

As a class, choose **one** caring job you can really do this term. Draw your plan.

our caring plan

TOPIC 6.6

Celebrations and traditions

All over the world, people stop ordinary life and celebrate together. The reasons are different. The joy looks remarkably similar.

 Find it on the map

Celebrations around the world

 Let's find out

A **tradition** is something a family or a country has done for a very long time, passed from grown-ups to children. Your family has traditions even if you have never called them that.

TOPIC 6.6

Four celebrations

Diwali, India. Rows of small lamps, and light winning over dark.

Lunar New Year. A dragon dance, red lanterns, red envelopes.

Guelaguetza, Mexico. Dancers, flowers, and gifts shared round.

Santos Populares, Portugal. Streamers, basil pots and sardines.

 Did you know?

Guelaguetza is a word from the Zapotec language of Mexico. It means giving a gift or a hand knowing that one day it will come back to you.

TOPIC 6.6

My family's celebration

- 1 Draw your family's favourite celebration. Show the food, and who comes.

our celebration

 **Tell the class**

What is it called? When does it happen? What is the very best part?

★ WORDS FOR CELEBRATING

festival

tradition

culture

together

TOPIC 6.7

Respecting different cultures

A bow, a handshake, a wave, a hand on the heart, two foreheads together. All of them mean hello.

Let's find out

Respect means treating something as important because it matters to somebody else, even when it is not your own way of doing things. You do not have to share a tradition to respect it.

Three good questions

Instead of saying *that is strange*, try: **What is it called? What does it mean? Would you show me?**

TOPIC 6.7

Tasting the world

One table, food from six countries, everybody trying something new.

Is it better when everybody in a place does things the same way, or when they do things differently?

This is the biggest question in the whole book, and grown-ups have never agreed on it. Say what you think.

★ MY NEW WORDS

respect

language

country

OUR CLASS PROJECT

Our family wall

Every family in the class, side by side on one wall.

1 Draw your family. One sheet each, everybody the same size of paper.

2 Add one tradition. Draw one thing your family always does, in a corner of your sheet.

3 Put them all up. No order, no labels of best or biggest. Just all of them together.

4 Go and look. Find one family that does something yours does. Find one that does something new to you.

HOW DID IT GO?

Think about Unit 6

I can draw and talk about my family

I know families come in many shapes

I can say what makes a good friend

I can name a celebration from another country

I asked somebody about their tradition

- ☐ talk about who is in my family
- ☐ say that families come in many shapes
- ☐ name three things a good friend does
- ☐ name people who help in my community
- ☐ ask a respectful question about a tradition

Looking back

The last revision fair of the year, with a transport corner and a culture corner.

Six tables to visit

1. **The map table.** Drive the toy vehicles to the right places.
2. **The sorting table.** Land, water or air?
3. **The crossing table.** Act out the four road-safety steps.
4. **The family table.** Match each home to the family who lives in it.
5. **The celebration table.** Match each festival to its country.
6. **The greeting table.** Say hello five different ways.

Which unit this year did you like best? Why that one?

My best work

A whole year of work in one folder.

What goes in my folder

Choose your **best three** from this term: a journey map, a future vehicle, a family drawing, a celebration.

one

two

three

Talk about your year

The thing I am proudest of is... The thing that surprised me most was...

Things we did together

Summer term. Water play, picnics, sun hats and a class trip.

✨ Our summer

Draw or stick in your favourite thing the class did this term.

our best day this term

1 Write the name of one friend you made this year.

FINAL CHALLENGE · OUR WORLD FAIR

Show what the class has learned

One hall, six tables, families invited — all six skills at work.

- ✓ **Ask and find out** — plan one question visitors can try at your table
- ✓ **Look and think** — sort your display so it is clear
- ✓ **Choose and say why** — pick the best picture or letter to show, and say why
- ✓ **Work together** — share jobs; help a team mate
- ✓ **Talk and listen** — greet a visitor; answer; ask them one question
- ✓ **Look back** — after the fair, say what you did and what you liked

MY JOB AT THE FAIR

ONE THING I WANT VISITORS TO UNDERSTAND

FINAL PROJECT

Our World Fair

One hall, six tables, a whole year of learning, and every family invited.

How to put on the fair

1 Choose your table. Six tables, one for each unit: Sports, Needs, Digital, Talking, Moving, Family. Choose the one you liked best.

2 Fill your table. Put out the things you made this year: your posters, your machines, your maps, your postcards, your family drawing.

3 Make one thing to give away. A stamp, a paper medal, a kind message. Every visitor takes one home.

4 Practise your two sentences. *This is our table about...* and *My favourite thing here is...*

On the day

Stand by your table. Say hello to every visitor. Let them ask you questions, and remember that **you** are the one who knows about your table.

My table

- 1 Draw your table exactly as you want it to look, with everything on it.

my World Fair table

★ My two sentences

This is our table about

My favourite thing here is

Who will you invite to come and see it?

How did the year go?

This is the last time you colour these circles. Think about the whole year.

I listened to somebody who disagreed with me	☐ ☐ ☐
I found out about a country I did not know	☐ ☐ ☐
I changed my mind about something	☐ ☐ ☐
I helped somebody in my community	☐ ☐ ☐
I asked a good question	☐ ☐ ☐
I explained my table to a visitor	☐ ☐ ☐

What is the best question you asked all year?

Say it out loud. Nobody has to answer it.

My word book aeroplane to crossing

Every word you met this year, with its own picture. Point at one and say it out loud.

aeroplane

A vehicle that flies through the air.

bicycle

A machine with two wheels that you pedal.

boat

A vehicle that travels on water.

bus

A big vehicle that carries many people.

camera

A device that takes pictures.

care

To look after somebody.

charge

To fill a device up with electricity.

clothes

What we wear to keep warm and dry.

coin

A round piece of metal money.

community

All the people who live or work near each other.

country

A land with its own name, flag and rules.

crossing

A safe place to walk across a road.

My word book culture to globe

culture

The way a group of people live, eat, dress and celebrate.

device

A machine that does a job for you.

digital

Turned into a signal that a machine can carry.

enough

As much as you need, and no more.

exercise

Moving your body enough to make it work hard.

fair

The same for everybody.

family

The people who care for each other at home.

feeling

What is happening inside you, like happy or cross.

festival

A special day when people celebrate together.

food

What we eat to grow and stay strong.

game

Something you play for fun.

globe

A model of the world shaped like a ball.

My word book goods to loud

goods

Things that are bought and sold.

healthy

Well and strong.

help

To make something easier for somebody else.

home

The place where you live and feel safe.

indoor

Inside a building.

internet

The way devices all over the world send things to each other.

kind

Caring about how somebody else feels.

language

All the words a group of people use to talk.

letter

A message you write and send to somebody.

listen

To pay careful attention to what somebody says.

lorry

A big vehicle that carries goods by road.

loud

Making a lot of noise.

My word book map to respect

map

A picture of a place seen from above.

message

Something you send to tell somebody something.

need

Something you must have to live and stay well.

neighbour

Somebody who lives near you.

online

Joined up to the internet.

outdoor

Outside, in the open air.

password

A secret word that keeps your things private.

postbox

A box in the street where you post letters.

practise

To try something again and again to get better.

question

Something you ask when you want to know.

quiet

Making very little noise.

respect

Treating something as important because it matters to somebody.

My word book road to sport

road

A hard path for vehicles to drive along.

robot

A machine built to do a job by itself.

rules

What everybody agrees to do in a game.

safe

Looked after, with nothing to hurt you.

save

To keep something, like money, for later.

school

The place where you go to learn.

screen

The flat part of a device that you look at.

share

To let somebody else have some of yours.

smile

What your mouth does when you are happy.

sorry

What you say when you wish you had not done it.

spend

To swap money for something now.

sport

A game with rules and a way to win.

My word book stamp to want

stamp

A small paper square you stick on a letter to pay for it.

stretch

To make your body long and loose before you play.

talk

To say something out loud.

team

A group of people all trying for the same thing.

ticket

What you buy to travel on a bus, train or aeroplane.

timer

Something that tells you when time is up.

together

With each other.

tradition

Something people have done for a very long time.

train

A long vehicle that runs on rails.

travel

To go from one place to another.

walk

To go somewhere on your own two feet.

want

Something you would like but can live without.

My word book

water to world

water

The drink every living thing must have.

welcome

Making somebody feel glad they came.

win

To come first in a game.

word

One thing you say or write.

world

Everywhere, and everybody on Earth.

Where we found out

Every fact in a **Did you know?** panel in this book was checked before it was printed. These are the places we checked.

Unit 1 · Sports and recreation

- Paralympic Games history, first Games Rome 1960, about 400 athletes from 23 countries – International Paralympic Committee historical records.
- The five Olympic rings, designed by Pierre de Coubertin in 1913, standing for the five inhabited parts of the world – Olympic Charter.
- Children aged 5 to 17 need about 60 minutes of activity a day – World Health Organization guidelines on physical activity, 2020.
- Oware and the mancala family, among the oldest board games known, played across Africa for thousands of years.
- Capoeira inscribed on the UNESCO list of intangible cultural heritage, 2014.

Unit 2 · Rich and poor

- Susu saving groups in Ghana and West Africa.
- The piggy bank and the orange clay called *pygg*.
- UN Convention on the Rights of the Child, adopted 1989, ratified by 196 countries – UNICEF.

WHERE WE FOUND OUT

Units 3 and 4

Screens, messages and languages.

Unit 3 • Digital world

- ENIAC, 1945, the first large general-purpose electronic computer: filled a room and weighed about 30 tonnes – University of Pennsylvania.
- Most international internet traffic travels along undersea cables.
- Online safety guidance for young children: never share personal details, ask before clicking, always tell a trusted adult.

Unit 4 • Improving communication

- Alice Springs School of the Air, Australia, began 1951 using radio – National Archives of Australia.
- About 7,000 living languages worldwide – Ethnologue.
- Louis Braille devised his raised-dot system in 1824, aged 15.
- The first emoji set, 176 characters, created in Japan in 1999 by Shigetaka Kurita – Museum of Modern Art, New York.

WHERE WE FOUND OUT

WHERE WE FOUND OUT

Units 5 and 6

Journeys, families and celebrations.

Unit 5 • Moving goods and people

- Container shipping began in 1956 when the *Ideal X* carried 58 containers.
- The Netherlands has more bicycles than people: about 24 million bicycles for about 18 million residents.
- The Shanghai maglev has reached 431 kilometres per hour in service.
- Port of Rotterdam, the largest seaport in Europe.

Unit 6 • Family and culture

- *Guelaguetza*, a Zapotec word for reciprocal giving, and the Oaxaca festival of the same name – Government of Oaxaca, Mexico.
- Diwali, Lunar New Year and Santos Populares traditions.
- Portuguese traditions inscribed by UNESCO, including fado and cante alentejano.

WHERE WE FOUND OUT

THE END, AND THE BEGINNING

Your passport is full

Six units, six stamps, one whole year of looking at the world.

★ Colour a stamp for each unit you finished

✉ One last letter, from us to you

Dear reader,

You have met children from Ghana, Brazil, India, Australia, Mexico and the Netherlands this year. You worked out that people can look at the same thing and see something different, and that this is interesting rather than annoying. That is the whole subject. Keep asking. Keep listening.

From all of us at Prime Books

THE END

PRIME BOOKS

Dear World

Global Perspectives · Year 1

This year, the post keeps arriving. Children in Ghana, Brazil, India, Australia, Mexico and the Netherlands write to tell you about their games, their homes, their journeys and their favourite days of the year. You write back, in pencil, on the page.

Along the way you will find your heartbeat, sort needs from wants, learn three rules for staying safe online, read a face without any words, follow a banana from a farm to your shop, and draw your own family exactly as it is.

And in every unit there is one big question that has no answer printed anywhere in the book. That is on purpose. Those are the questions worth talking about.

 Sports

 Needs

 Digital
