All continuous prose, activities and illustrations in this edition are original to Prime Books unless a Sources entry says otherwise.

EDITORIAL BOARD

The Prime Books Subject Series has been developed under the guidance of the Pedagogical Academic Group for each subject and coordinated by the Pedagogical Team of Prime School. This publication reflects our shared commitment to academic excellence, educational quality, professional integrity, and the continuous advancement of teaching and learning.

Independent publication of Prime School.

Welcome

Look Outwards Club • Global Citizens • Year 6 enquiry world

This is your **Global Perspectives** book for Year 6.

You are ten (or nearly eleven). You already know how to hold a careful question and listen before you judge. Year 6 asks you to follow **systems**: how a message travels, how a law protects people you will never meet, how a T-shirt links factories and shops, how countries talk when they disagree, and how apps are designed to hold your attention.

Your guides are the **Look Outwards Club**: Inês, Jamal, Sofia and Mateo. Their stories are invented for teaching. The facts in Did you know? panels are checked in Sources.

Four habits: Ask • Listen • Compare • Act with care.

On every page there is a *Teacher notes* band for the adult who teaches with you.

TEACHER NOTES

Objective Orient the book and cast.

Do Read the welcome aloud; name the four habits.

Listen / Correct Pupils name Inês, Jamal, Sofia, Mateo.

Support Poster of four habits.

Extra challenge One question linking Year 5 to Year 6.

How to use this book

How a unit works: opener, outcomes, topics, project, reflection

Each unit has a clear page path, like the other Prime Student Manuals:

- **Opener** — image, unit title and the big question.
- **Outcomes** — what you will learn and a unit QR (adult holds the device).
- **Topics** — short teaching, quick action, Your turn practice.
- **Project** — a shared product for the unit.
- **What we learned** — checklist and looking ahead.

Talk **before** you write. Give reasons with *because*. Listen until your partner finishes.

At the back of the book: Word list, Answers, Sources, For teachers, and unit QR codes.

TEACHER NOTES

- **Objective:** Explain page furniture and unit shape.
- **Do:** Walk the table; open one sample unit.
- **Listen / Correct:** Pupils find Opener / Outcomes / Project labels.
- **Support:** Point to Teacher notes band.
- **Extra challenge:** Preview Unit 1 big question.

Who you will meet

Who you will meet • Inês • Jamal • Sofia • Mateo

Name	What they are for
Inês	Asks careful questions before anyone decides
Jamal	Notices how people feel when they speak
Sofia	Compares life here with life in other places
Mateo	Turns ideas into small, kind actions

They are classmates in the early years of primary school, now in Year 6. Disagree with their ideas, not with them. Portuguese place names and euros appear where natural (Lisbon, Porto, Coimbra, Algarve, Azores, Madeira).

TEACHER NOTES

- **Objective:** Introduce the cast as thinking tools, not celebrities.
- **Do:** Assign roles for one short dialogue.
- **Listen / Correct:** Pupils restate one role in their own words.
- **Support:** Role cards if useful.
- **Extra challenge:** Invent a fifth role the class needs.

Unit 1 opener • Improving communications

Unit 1 of 6 • Look Outwards • Global Citizens

Improving communications

THE BIG QUESTION

What makes a message truly understood?

GETTING STARTED

Inês draws four circles on the board: Words • Tone • Body • Listening. She labels them "the communication equation". Jamal says a joke can land or fail depending on tone alone. Sofia has heard a classmate switch languages mid-sentence at the bus stop in Coimbra. Mateo wants to run a silent scene in drama. Before they compete for the whiteboard, they collect five moments from the last twenty-four hours when a message was misunderstood. Then they face the big question: what makes a message truly understood?

TEACHER NOTES

- **Objective:** Warm up with the big question and unit story.
- **Do:** Read opener; pair talk 1–2 minutes each.
- **Listen / Correct:** Full sentences; respectful listening.
- **Support:** Sentence frame: I think... because...
- **Extra challenge:** One extra why question.

In this unit you will

Unit 1 · Improving communications

IN THIS UNIT YOU WILL

1. Explain communication as a full system.

Words, tone, body language and listening work together.

2. Design practical language bridges.

Gestures, pictures, patience and interpreters all count.

3. Compare communication styles with respect.

Direct or soft, loud or quiet: notice before you judge.

4. Practise respectful digital messages.

Online words travel further and last longer.

5. Separate fair persuasion from unfair pressure.

Evidence and listening beat shouting and tricks.

6. Use active listening to understand another person.

Say-it-back, open questions and a calm body.

Look closer (QR) · Unit 1

Ask a **grown-up** to hold the device.

UNICEF education / communication (adult-held)

TEACHER NOTES

- **Objective:** Share outcomes and QR (adult-held).
- **Do:** Read outcomes; tick one personal goal.
- **Listen / Correct:** Pupils restate one outcome.
- **Support:** Highlight three focus outcomes if needed.
- **Extra challenge:** Link one outcome to a local example.

1.1 • The communication equation

Unit 1 • 1.1 • The communication equation

1.1 • The communication equation

DO YOU REMEMBER?

What is one message you sent today without using spoken words?

BOOTS ON!

In pairs, say "We need to talk" three ways: calm, worried, angry. Keep the words identical. Note what changed.

LET US FIND OUT

Think of communication as an **equation** with four parts that must balance:

words + tone + body language + listening

If one part is missing or fights the others, the message wobbles. Clear words with a sharp tone can feel like an attack. A kind face with vague words can leave people guessing. Listening is not a free extra: without it, the loop never closes.

In a Lisbon classroom, "Can you help?" can mean "I am stuck" or "Do this for me", depending on posture and voice. Year 6 communicators pause and check: "Did I hear you right?" That check is part of the equation, not a delay.

TEACHER NOTES

- **Objective:** Introduce 1.1: The communication equation.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

1.1 · Your turn

1.1 · Your turn · The communication equation

YOUR TURN

1. Write a one-sentence definition of communication that names all four parts.
2. Tick which parts you used in your last conversation: words · tone · body · listening.
3. Describe a real (or invented) mix-up where words were fine but tone broke the message.
4. Rewrite one short classroom instruction so tone and body would support it.

DID YOU KNOW?

Many workplaces train adults in non-verbal awareness because meetings often fail when faces and words disagree.

FROM ANOTHER CHAIR

- *Mateo says:* If the words are clear, the rest is decoration.
- *Jamal says:* Tone and face are half the message. I stop listening when someone sounds bored.
- *Then:* When have you been misunderstood even though the words were simple?

LOOK OUTWARDS NOTES

Sketch the four-part equation as a diagram. Star the part you most often forget.

TEACHER NOTES

- **Objective:** Practise and reflect on 1.1.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

1.2 • Bridging the language gap

Unit 1 • 1.2 • Bridging the language gap

1.2 • Bridging the language gap

DO YOU REMEMBER?

Have you ever tried to understand someone who spoke another language?

BOOTS ON!

Sixty seconds: invent four silent signs for water, toilet, help and thank you. Test them on a partner. Adjust if they fail.

LET US FIND OUT

When people do not share a language, they build **bridges**: gestures, drawings, simple shared words, translation tools (with adult care), and human **interpreters**. Portugal is a strong place to notice bridges. Classmates may speak Portuguese at home, or English, or languages from Portuguese-speaking countries overseas, or something entirely new. A bridge is not a test of who is "clever". It is a fair tool so both sides can be heard.

Shouting the same sentence louder is not a bridge. Slowing down, pointing to a picture, and checking understanding are.

TEACHER NOTES

- **Objective:** Introduce 1.2: Bridging the language gap.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

1.2 · Your turn

1.2 · Your turn · Bridging the language gap

YOUR TURN

1. List four bridge tools you could use if a new pupil spoke only French.
2. Circle which tools need a grown-up: translation app · drawing · smile · school interpreter.
3. Write one kind classroom rule for language-bridge moments.
4. Design a two-icon emergency card (help + water) and label why it works.

DID YOU KNOW?

The United Nations and many schools use professional interpreters so people can take part in meetings in their preferred language.

LOOK OUTWARDS NOTES

Design a pocket card with five picture signs for visitors to your school.

ONE STEP FURTHER

Ask an adult which languages they meet at work or in town. Note one that surprised you and why.

TEACHER NOTES

- **Objective:** Practise and reflect on 1.2.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

1.3 • Cultural codes

Unit 1 • 1.3 • Cultural codes

1.3 • Cultural codes

DO YOU REMEMBER?

Does everyone in your family greet people the same way?

BOOTS ON!

Stand up. Show a greeting you know: wave, handshake mime, bow of the head. No touching if you prefer not to. Notice two differences in the room.

LET US FIND OUT

A **cultural code** is an unwritten habit about how people speak and behave: how close to stand, how direct to be, whether interrupting is rude, how long to wait before answering, whether eye contact is expected.

Codes are not "right" or "wrong" like a maths sum. They are patterns people learn. In some homes, children speak only when invited. In others, lively overlap is normal. In Portugal you may kiss cheeks in family settings; in other places a small bow or handshake is preferred.

The Year 6 skill is **notice, ask, respect**. Mocking a style is not curiosity. Asking "How do people usually greet in your family?" is.

TEACHER NOTES

- **Objective:** Introduce 1.3: Cultural codes.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

1.3 · Your turn

1.3 · Your turn · Cultural codes

YOUR TURN

1. Write two communication habits you see in your home.
2. Write one habit you have seen in a film, book or trip that is different.
3. Finish the sentence: Before I judge a style, I will...
4. Invent a respectful question you could ask a new classmate about greetings.

FROM ANOTHER CHAIR

- *Sofia says:* Direct speech is always best because nobody is confused.
- *Jamal says:* Soft speech can still be clear, and it protects feelings.
- *Then:* Which style helps when someone is upset? Why?

LOOK OUTWARDS NOTES

Draw two chairs labelled Direct and Soft. Under each, write one good use and one risk.

TEACHER NOTES

- **Objective:** Practise and reflect on 1.3.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

1.4 • Respectful messages online

Unit 1 • 1.4 • Respectful messages online

1.4 • Respectful messages online

DO YOU REMEMBER?

What is the difference between a private chat and a public post?

BOOTS ON!

Write a three-word message that could be read two ways (for example "Sure, fine."). Share how tone might be misread.

LET US FIND OUT

Online communication is still communication, but it has extra risks: no face, fast send, and a message that can be **forwarded** beyond the people you chose.

Digital citizenship here means: write as if the person is in the room, check before you send, never share a classmate's private photo or address, and tell a trusted adult if something feels wrong.

Emojis can help tone, but they do not fix unkind words. Caps lock can feel like shouting. A delayed reply is allowed. Silence is not always agreement. Screenshots travel.

TEACHER NOTES

- **Objective:** Introduce 1.4: Respectful messages online.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

1.4 · Your turn

Your turn · 1.4 · Respectful messages online

1.4 · Your turn · Respectful messages online

YOUR TURN

1. Rewrite this message so it is clearer and kinder: "u r so dumb lol".
2. Sort private or public: class group chat · school website · family photo shared with friends · password.
3. Write one school rule you would invent for kind digital talk.
4. List two reasons a joke can hurt more online than face to face.

DID YOU KNOW?

Many European schools teach e-safety as part of citizenship and computing, not only as a one-day talk.

TEACHER NOTES

- **Objective:** Practise and reflect on 1.4.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

1.5 • The art of persuasion

Unit 1 • 1.5 • The art of persuasion

1.5 • The art of persuasion

DO YOU REMEMBER?

When did someone convince you with a good reason, not by shouting?

BOOTS ON!

In forty seconds, persuade a partner to try a healthy snack using only two reasons and one fact. No nagging.

LET US FIND OUT

Persuasion means inviting someone to agree using reasons, stories and evidence. It is different from **pressure** (threats, shame, endless nagging) and from **tricks** (false claims, hiding the downside).

Global ideas travel by persuasion too: climate campaigns, charity posters, sports adverts, assembly talks. Year 6 pupils can share ideas in a class assembly, a poster, or a short video script, but they still need facts they can check.

Fair persuasion asks three questions: What is my claim? What is my evidence? Who might disagree, and why might they be right?

TEACHER NOTES

- **Objective:** Introduce 1.5: The art of persuasion.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

1.5 · Your turn

1.5 · Your turn · The art of persuasion

YOUR TURN

1. Write a claim about reducing plastic at school in one sentence.
2. Add one piece of evidence (observation or trusted source).
3. Write one counter-view a classmate might hold, then one respectful reply.
4. Label a poster sketch: claim · evidence · respectful ask.

FROM ANOTHER CHAIR

- *Mateo says:* The loudest poster wins.
- *Inês says:* The clearest evidence wins, even in a quiet voice.
- *Then:* Which poster would you trust: loud colours, or sources listed at the bottom?

LOOK OUTWARDS NOTES

Write a fair one-minute speech outline: claim, two reasons, one source type, one respectful close.

TEACHER NOTES

- **Objective:** Practise and reflect on 1.5.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

1.6 • Active listening

Unit 1 • 1.6 • Active listening

1.6 • Active listening

DO YOU REMEMBER?

What does your body do when you are really listening?

BOOTS ON!

Partner A speaks for thirty seconds about a weekend plan. Partner B must say it back in their own words, then ask one open question. Swap.

LET US FIND OUT

Active listening means listening to understand, not only to reply.

Tools: calm body, no interrupting, **say-it-back**, and open questions (How... Why... What happened next...).

In class discussion, active listening is how perspectives get a fair turn. In global topics, it is how we avoid jumping to stereotypes about places we have never visited.

Listening is a skill. It can be practised like a sport. Year 6 listeners also notice when they are planning their answer instead of hearing the person.

TEACHER NOTES

- **Objective:** Introduce 1.6: Active listening.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

1.6 · Your turn

1.6 · Your turn · Active listening

YOUR TURN

1. Write two open questions you could ask a new classmate.
2. Write one closed question (yes/no) and one open version of it.
3. Rate your last group talk: 1 (I waited to speak) to 5 (I understood someone first). Explain one point.
4. Invent a four-word personal listening motto.

DID YOU KNOW?

Counsellors and mediators train in reflective listening because repeating key ideas reduces conflict.

LOOK OUTWARDS NOTES

Draw a listening body: eyes (if comfortable), quiet hands, open questions bubble.

TEACHER NOTES

- **Objective:** Practise and reflect on 1.6.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

Project

Unit 1 project • Improving communications

PROJECT

Bridge card project. In pairs, design a double-sided card for visitors to your school: five picture signs, two welcome phrases (Portuguese + another language you know), one listening tip, and one "how to ask for help" line. Share in a two-minute presentation. Assess yourselves for clarity, kindness and usefulness.

TEACHER NOTES

- **Objective:** Unit product with clear success criteria.
- **Do:** Pairs or small groups; time-box sharing.
- **Listen / Correct:** Clarity, kindness, evidence.
- **Support:** Role cards; scaffolded template.
- **Extra challenge:** Audience share of one strong idea.

What we learned

Unit 1 reflection • Improving communications

WHAT WE LEARNED

- [] I can name the four parts of the communication equation.
- [] I can suggest a language bridge without mocking.
- [] I can explain a cultural style with respect.
- [] I can rewrite an unkind digital message.
- [] I can tell persuasion from pressure.
- [] I can use say-it-back listening.

LOOKING AHEAD

What is one careful communication habit you want to take into Unit 2?

TEACHER NOTES

- **Objective:** Self-check and forward link.
- **Do:** Pupils tick honestly; share one star and one wish.
- **Listen / Correct:** Evidence of learning, not perfection.
- **Support:** Revisit weak outcome with a short task.
- **Extra challenge:** Write one goal for the next unit.

Unit opener

Unit 2 opener • Obeying the law

Unit 2 of 6 • Look Outwards • Global Citizens

Obeying the law

THE BIG QUESTION

Who are laws for, and what makes a consequence fair?

GETTING STARTED

Sofia pins a class charter next to a photo of a zebra crossing in Porto. Mateo asks why adults get fined for parking on a pavement. Jamal wonders who writes laws, and Inês opens a notebook labelled "fair or unfair?". Before opinions become noise, they collect three school rules and three town rules. Then they ask: who are laws for, and what makes a consequence fair?

TEACHER NOTES

- **Objective:** Warm up with the big question and unit story.
- **Do:** Read opener; pair talk 1–2 minutes each.
- **Listen / Correct:** Full sentences; respectful listening.
- **Support:** Sentence frame: I think... because...
- **Extra challenge:** One extra why question.

In this unit you will

Unit 2 · Obeying the law

IN THIS UNIT YOU WILL

1. Explain why communities write laws.

Safety, fairness and shared order, not only punishment.

2. Link rights to responsibilities.

A right you enjoy is matched by a duty that protects others.

3. Describe human rights in age-safe language.

Dignity, education, protection and a voice that is heard.

4. Discuss fair consequences for breaking rules.

Protect people and help repair harm where possible.

5. Study real examples carefully and kindly.

No gossip; no names of classmates; focus on principles.

Look closer (QR) · Unit 2

Ask a **grown-up** to hold the device.

UN child rights overview (adult-held)

TEACHER NOTES

- **Objective:** Share outcomes and QR (adult-held).
- **Do:** Read outcomes; tick one personal goal.
- **Listen / Correct:** Pupils restate one outcome.
- **Support:** Highlight three focus outcomes if needed.
- **Extra challenge:** Link one outcome to a local example.

2.1 • Purpose of laws

Unit 2 • 2.1 • Purpose of laws

2.1 • Purpose of laws

DO YOU REMEMBER?

What is one rule that keeps people safe at school?

BOOTS ON!

In groups of three, invent a tiny island with eight people. Write three laws you would need on day one and one law you would not allow.

LET US FIND OUT

Laws are formal rules made by a community or country so people can live together with **safety**, **fairness** and **predictability**. Traffic laws, food safety laws and school policies are different layers of the same idea: shared order.

Laws are not perfect. They can be improved when evidence shows harm. That is why parliaments debate and update them. In Portugal, the national parliament is the **Assembly of the Republic**. For Year 6, the key is: laws are for **people**, including people who will never meet each other, and including children.

TEACHER NOTES

- **Objective:** Introduce 2.1: Purpose of laws.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

2.1 · Your turn

2.1 · Your turn · Purpose of laws

YOUR TURN

1. Write two purposes of laws in your own words.
2. Sort these into school rule or national law: no running in corridors · speed limits · homework deadlines · food safety rules.
3. Explain why predictability matters (what would a road feel like with no shared rules?).
4. Write one law idea for your island that protects someone weaker.

DID YOU KNOW?

Many countries publish laws online so people can read the rules that apply to them.

LOOK OUTWARDS NOTES

Sketch a three-layer stack: classroom rules · town rules · country laws. Add one example each.

TEACHER NOTES

- **Objective:** Practise and reflect on 2.1.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

2.2 • Rights and responsibilities

Unit 2 • 2.2 • Rights and responsibilities

2.2 • Rights and responsibilities

DO YOU REMEMBER?

What is one right you have at school, and one duty that goes with it?

BOOTS ON!

Complete the pair: "I have the right to be heard. My responsibility is..." Share once with a partner.

LET US FIND OUT

A **right** is something you are entitled to in a fair community: safety, learning, respect. A **responsibility** (also called a duty) is what you do to protect other people's rights.

Rights without responsibilities can become selfish. Responsibilities without rights can become unfair control. Year 6 thinkers hold both together.

Example: you have a right to speak in a discussion. You also have a responsibility not to shout over someone else. You have a right to a safe playground. You also have a responsibility not to leave litter that could hurt others.

TEACHER NOTES

- **Objective:** Introduce 2.2: Rights and responsibilities.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

2.2 · Your turn

2.2 · Your turn · Rights and responsibilities

YOUR TURN

1. Copy and complete three pairs: right → matching responsibility.
2. Explain why "I can do whatever I want" is not a fair reading of rights.
3. Write one classroom right and one duty that protects a quieter classmate.
4. Invent a short motto for rights-and-duties (eight words or fewer).

FROM ANOTHER CHAIR

- *Mateo says:* Rights are more important than duties.
- *Inês says:* Duties keep rights real for everyone.
- *Then:* Which view helps a class assembly run fairly?

LOOK OUTWARDS NOTES

Draw a balance scale: rights on one side, responsibilities on the other. Add one weight each.

TEACHER NOTES

- **Objective:** Practise and reflect on 2.2.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

2.3 • Human rights

Unit 2 • 2.3 • Human rights

2.3 • Human rights

DO YOU REMEMBER?

What is one thing every child should have, no matter where they live?

BOOTS ON!

Sort cards (or a list): human right or personal want? phone upgrade • food • education • latest trainers • protection from harm • own bedroom.

LET US FIND OUT

Human rights are basic entitlements every person should have because they are human, not because they are rich, famous or lucky. They include ideas such as dignity, education, protection and a voice that is heard.

In 1948 the United Nations adopted the **Universal Declaration of Human Rights**. There is also a **Convention on the Rights of the Child**. You do not need to memorise every article. You need to understand the idea: some things should not depend on postcode or popularity.

A new phone is a want, not a human right. Safe schooling is closer to a human right. Year 6 discussion stays kind and age-safe: no graphic stories, no blaming whole peoples.

TEACHER NOTES

- **Objective:** Introduce 2.3: Human rights.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

2.3 • Your turn

Your turn • 2.3 • Human rights

2.3 • Your turn • Human rights

YOUR TURN

1. Write a one-sentence definition of human rights.
2. Circle human rights (not wants): clean water • designer bag • education • protection from violence • newest game console.
3. Explain why education is often listed as a right for children.
4. Write one way a school can show respect for dignity every day.

DID YOU KNOW?

The Universal Declaration of Human Rights was adopted by the UN General Assembly in 1948.

TEACHER NOTES

- **Objective:** Practise and reflect on 2.3.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

2.4 • Consequences of breaking the law

Unit 2 • 2.4 • Consequences of breaking the law

2.4 • Consequences of breaking the law

DO YOU REMEMBER?

What is a fair consequence when someone breaks a class rule?

BOOTS ON!

In pairs, rank these consequences for a broken playground rule from least to most serious: apology • lost playtime • chat with teacher • call home. Explain one ranking choice.

LET US FIND OUT

A **consequence** is what follows when a rule or law is broken. Fair consequences aim to **protect people**, **stop harm**, and sometimes help **repair** what was damaged. They are not the same as revenge.

At school, consequences are usually educational and proportional. In adult life, laws can carry fines or other legal outcomes. Year 6 studies the *idea* of fairness, not crime details. We do not describe graphic offences. We ask: is this consequence clear, safe and aimed at learning or repair?

Unfair consequences punish the wrong person, are secret, or are much harsher than the harm done.

TEACHER NOTES

- **Objective:** Introduce 2.4: Consequences of breaking the law.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

2.4 · Your turn

2.4 · Your turn · Consequences of breaking the law

YOUR TURN

1. Write three aims of a fair consequence.
2. Label fair or unfair: secret punishment with no explanation · chance to repair · same rule for everyone · mocking the person.
3. Invent a fair consequence for leaving a wet floor without a warning sign (school scene).
4. Explain why revenge is not the same as justice.

FROM ANOTHER CHAIR

- *Sofia says:* The strictest consequence always works best.
- *Jamal says:* A consequence that teaches repair can work better.
- *Then:* When might a calm conversation be more powerful than a harsh penalty?

LOOK OUTWARDS NOTES

Sketch a "fair consequence ladder" with three rungs and one example each.

TEACHER NOTES

- **Objective:** Practise and reflect on 2.4.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

2.5 • Real life examples

Unit 2 • 2.5 • Real life examples

2.5 • Real life examples

DO YOU REMEMBER?

Why do we avoid using real classmates' names when we discuss problems?

BOOTS ON!

Class rule for this topic: no names of real pupils as "cases". Invent characters only. Agree with a thumbs-up.

LET US FIND OUT

We study **examples** carefully so principles become real. In this book, cases are **invented teaching scenes**, not gossip about private people.

Example frame A: a delivery cyclist in Lisbon ignores a red light to save time.

Questions: who could be harmed? which law protects people? what fair consequence might protect the street?

Example frame B: a shop posts a false claim about a product. Questions: how does honesty connect to law and trust? who is responsible?

Your job: name principles (safety, honesty, fairness), not scandals. If a discussion feels too heavy, tell a teacher. Stay age-safe.

TEACHER NOTES

- **Objective:** Introduce 2.5: Real life examples.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

2.5 · Your turn

2.5 · Your turn · Real life examples

YOUR TURN

1. For frame A, list two people who could be affected and one safety law idea.
2. For frame B, write one fair shop rule and one customer responsibility.
3. Invent a third short frame (three sentences) about littering near a river. No real names.
4. Write the class discussion rule you will keep when talking about "real life".

DID YOU KNOW?

News reports about courts are written for adults. Primary classes use simplified, invented frames instead.

LOOK OUTWARDS NOTES

Create a principle card: Safety · Fairness · Honesty · Dignity. Tick which principle each frame taught you.

TEACHER NOTES

- **Objective:** Practise and reflect on 2.5.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

Project

Unit 2 project • Obeying the law

PROJECT

Class charter 2.0. In small groups, draft a one-page charter for Year 6: five rights, five responsibilities, three fair consequence ideas, and one sentence about dignity. Present in two minutes. Vote on which lines to keep for the wall.

TEACHER NOTES

- **Objective:** Unit product with clear success criteria.
- **Do:** Pairs or small groups; time-box sharing.
- **Listen / Correct:** Clarity, kindness, evidence.
- **Support:** Role cards; scaffolded template.
- **Extra challenge:** Audience share of one strong idea.

What we learned

Unit 2 reflection • Obeying the law

WHAT WE LEARNED

- [] I can explain why communities write laws.
- [] I can pair a right with a responsibility.
- [] I can tell a human right from a luxury want.
- [] I can describe a fair consequence.
- [] I can discuss examples without gossip.

LOOKING AHEAD

What is one fair-community idea you want to take into the globalisation unit?

TEACHER NOTES

- **Objective:** Self-check and forward link.
- **Do:** Pupils tick honestly; share one star and one wish.
- **Listen / Correct:** Evidence of learning, not perfection.
- **Support:** Revisit weak outcome with a short task.
- **Extra challenge:** Write one goal for the next unit.

Unit opener

Unit 3 opener • Globalisation

Unit 3 of 6 • Look Outwards • Global Citizens

Globalisation

THE BIG QUESTION

How does the world connect through things we use every day?

GETTING STARTED

Mateo empties his school bag onto a table: pencil case, water bottle, snack wrapper, football sticker. Sofia asks where each object might have started life. Jamal wants to know who sewed the bag strap. Inês draws a dotted line from "cotton field" to "our classroom". Before they invent wild countries, they choose one object and list five steps it might have taken. Then the big question: how does the world connect through things we use every day?

TEACHER NOTES

- **Objective:** Warm up with the big question and unit story.
- **Do:** Read opener; pair talk 1–2 minutes each.
- **Listen / Correct:** Full sentences; respectful listening.
- **Support:** Sentence frame: I think... because...
- **Extra challenge:** One extra why question.

In this unit you will

Unit 3 · Globalisation

IN THIS UNIT YOU WILL

1. Map a simple supply chain and name interdependence.

Materials, makers, ships, shops and buyers link places.

2. Explain how information and ideas travel.

Speed is powerful and risky without checking.

3. Discuss cultural exchange with respect.

Sameness and local mix both appear in real life.

4. Ask who gains and who risks in global trade.

Winners and losers questions without blaming peoples.

5. Identify problems without passports.

Pollution, pandemics and climate need shared care.

6. State a personal global-citizen action.

Local choices connect to wider fairness.

Look closer (QR) · Unit 3

Ask a **grown-up** to hold the device.

UN global issues overview (adult-held)

TEACHER NOTES

- **Objective:** Share outcomes and QR (adult-held).
- **Do:** Read outcomes; tick one personal goal.
- **Listen / Correct:** Pupils restate one outcome.
- **Support:** Highlight three focus outcomes if needed.
- **Extra challenge:** Link one outcome to a local example.

3.1 • The engine of trade

3.1 • The engine of trade

DO YOU REMEMBER?

Where do you think your T-shirt or trainers might have been made?

BOOTS ON!

Pick a classroom object. In pairs, invent five plausible steps from raw material to your desk. Label one risk at any step.

LET US FIND OUT

A **supply chain** is the path from materials to finished product to buyer.

Cotton may grow in one country, be spun in another, sewn in a third, and sold in Portugal. Ships, lorries, warehouses and workers connect the steps.

Interdependence means we rely on people we may never meet. Container ships move a huge share of world goods. When one step fails, many people feel the effect.

Year 6 thinkers map chains carefully and treat every worker as a person with dignity, not as a cartoon.

TEACHER NOTES

- **Objective:** Introduce 3.1: The engine of trade.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

3.1 · Your turn

Your turn · 3.1 · The engine of trade

3.1 · Your turn · The engine of trade

YOUR TURN

1. Sketch a five-stage supply chain for a fruit juice carton (labels welcome).
2. Star one step that could fail (weather, transport, illness) and write the effect.
3. Write one sentence defining interdependence.
4. Name two jobs in your chain and one skill each job needs.

DID YOU KNOW?

Container shipping moves a large share of the world's goods trade across oceans.

TEACHER NOTES

- **Objective:** Practise and reflect on 3.1.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

3.2 • How information and ideas travel

Unit 3 • 3.2 • How information and ideas travel

3.2 • How information and ideas travel

DO YOU REMEMBER?

How quickly can a video filmed in one country reach a phone in Portugal?

BOOTS ON!

Time yourselves: list five ways a news story can travel from another continent to your family (no phones needed for listing).

LET US FIND OUT

Ideas travel through cables, satellites, newsrooms, schools, music, sport and chat.

This "digital nervous system" can spread helpful science and also **false claims**.

Speed is not the same as truth. A message that races around the world still needs a source check. Year 6 global citizens ask: who made this, when, and what evidence is shown?

Ideas also travel slowly: books, teachers, family stories. Slow travel can be careful travel.

TEACHER NOTES

- **Objective:** Introduce 3.2: How information and ideas travel.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

3.2 • Your turn

3.2 • Your turn • How information and ideas travel

YOUR TURN

1. Sort fast or slow: undersea cable news • grandparent story • viral clip • textbook chapter.
2. Write two risks of very fast idea travel.
3. Write two benefits of careful, slower checking.
4. Invent a three-step class rule for sharing a "world news" claim.

FROM ANOTHER CHAIR

- *Sofia says:* Faster is always better for learning.
- *Inês says:* Checked is better than fast and wrong.
- *Then:* When is speed most useful, and when is it dangerous?

LOOK OUTWARDS NOTES

Sketch a "nervous system" map: source → travel path → your class. Mark one check point.

TEACHER NOTES

- **Objective:** Practise and reflect on 3.2.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

3.3 • Cultural exchange

Unit 3 • 3.3 • Cultural exchange

3.3 • Cultural exchange

DO YOU REMEMBER?

Is every high street in the world identical?

BOOTS ON!

Name three things in your town that feel "global" and three that feel "local". Share one of each.

LET US FIND OUT

Globalisation can make some brands, songs and foods appear almost everywhere. That sameness is sometimes called **homogenisation**. At the same time, people mix global styles with local habits: a **hybrid culture**.

Neither word is a weapon. The skill is respect. A Portuguese pastel de nata in a global cafe chain is not "less Portuguese" for being popular. A local festival that welcomes new neighbours is not "less local" for sharing joy.

Year 6 avoids stereotypes such as "all people from X are...". Individuals differ.

TEACHER NOTES

- **Objective:** Introduce 3.3: Cultural exchange.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

3.3 · Your turn

3.3 · Your turn · Cultural exchange

YOUR TURN

1. Write one example of sameness you have seen (shops, brands, media).
2. Write one example of local mix (food, music, language, festival).
3. Explain hybrid culture in one sentence of your own.
4. Rewrite a stereotype into a careful observation.

DID YOU KNOW?

Fair trade labels try to signal better standards for some producers, but shoppers still need to read claims carefully.

LOOK OUTWARDS NOTES

Two columns: Same everywhere · Mixed here. Add three items each.

ONE STEP FURTHER

With an adult, notice one product label that names a country of origin. Note it without judging the whole country.

TEACHER NOTES

- **Objective:** Practise and reflect on 3.3.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

3.4 • Winners and losers

Unit 3 • 3.4 • Winners and losers

3.4 • Winners and losers

DO YOU REMEMBER?

Can a trade deal help some people and hurt others at the same time?

BOOTS ON!

Role cards (teacher assigns): factory worker • shop owner • shopper • environment. Each says one hope and one fear about a new cheap product arriving.

LET US FIND OUT

Global trade can lower prices, create jobs and open choices. It can also move jobs, pressure wages, or harm environments if rules are weak. Asking ****who gains and who risks**** is not "being negative". It is fair enquiry.

We do not blame whole countries or peoples. We study systems: companies, laws, shipping, demand. Year 6 global citizens look for dignity and evidence, not winners to cheer and losers to mock.

TEACHER NOTES

- **Objective:** Introduce 3.4: Winners and losers.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

3.4 · Your turn

3.4 · Your turn · Winners and losers

YOUR TURN

1. List two possible gains from global trade for a Portuguese family.
2. List two possible risks for workers or environments (general, not insults).
3. Write one fair question a careful shopper could ask.
4. Finish: "A system can help some people and..."

FROM ANOTHER CHAIR

- *Mateo says:* Cheapest is always best.
- *Sofia says:* Fair and safe can matter more than cheapest.
- *Then:* When would you pay a little more, and why?

LOOK OUTWARDS NOTES

Draw a balance: Gains / Risks. Add two notes each side.

TEACHER NOTES

- **Objective:** Practise and reflect on 3.4.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

3.5 • Problems without passports

Unit 3 • 3.5 • Problems without passports

3.5 • Problems without passports

DO YOU REMEMBER?

Can pollution from one place affect air or sea far away?

BOOTS ON!

In groups, list three problems that do not stop at a border (for example a river that crosses countries).

LET US FIND OUT

Some problems do not carry passports: **pandemics, pollution**, climate risks, and some wildlife declines. They need shared care because one country alone cannot always fix them.

International organisations such as the **World Health Organization** help countries coordinate health responses, while countries still keep many of their own powers. Year 6 stays age-safe: no graphic illness detail. Focus on cooperation and kindness. Blaming "other people" as a whole is not science and not fairness.

TEACHER NOTES

- **Objective:** Introduce 3.5: Problems without passports.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

3.5 · Your turn

3.5 · Your turn · Problems without passports

YOUR TURN

1. Name three borderless problems in your own words.
2. Explain why a shared river needs shared rules.
3. Write one helpful action a class could take that stays local but helps a wider goal.
4. Write one unhelpful reaction (blame) and replace it with a better enquiry question.

DID YOU KNOW?

The World Health Organization helps coordinate international health responses while countries keep many of their own decisions.

LOOK OUTWARDS NOTES

Sketch Earth with three arrows labelled problems without passports. Add one cooperation idea.

TEACHER NOTES

- **Objective:** Practise and reflect on 3.5.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

3.6 • Your role as a global citizen

Unit 3 • 3.6 • Your role as a global citizen

3.6 • Your role as a global citizen

DO YOU REMEMBER?

What is one small action you already take that helps more than only yourself?

BOOTS ON!

Finish the sentence: "A global citizen is someone who..." Share and improve a partner's line.

LET US FIND OUT

A **global citizen** cares about fairness beyond their own street. That does not mean you must solve every world problem. It means you learn, you listen, you check facts, and you choose local actions that reduce harm or increase kindness.

Examples sized for Year 6: reduce waste, welcome a new classmate, support a school project linked to the UN goals, notice labels, practise fair persuasion, refuse stereotypes.

Global citizenship is a habit, not a costume.

TEACHER NOTES

- **Objective:** Introduce 3.6: Your role as a global citizen.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

3.6 · Your turn

3.6 · Your turn · Your role as a global citizen

YOUR TURN

1. Write your own definition of global citizen (one or two sentences).
2. List three local actions that connect to wider fairness.
3. Choose one action for this month and write how you will check it worked.
4. Write one learning goal (what you still need to understand better).

LOOK OUTWARDS NOTES

Personal passport page: photo space (draw yourself), motto, one action, one learning goal.

ONE STEP FURTHER

With an adult, open the SDG overview (QR). Pick one goal that connects to your school life and note its number and name.

TEACHER NOTES

- **Objective:** Practise and reflect on 3.6.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

Project

Unit 3 project • Globalisation

PROJECT

Object biography. Choose one everyday object. Research (with adult help) a plausible supply chain. Make a one-page biography: materials, possible countries, one worker role, one environmental question, one fair-choice idea, one source you used.

TEACHER NOTES

- **Objective:** Unit product with clear success criteria.
- **Do:** Pairs or small groups; time-box sharing.
- **Listen / Correct:** Clarity, kindness, evidence.
- **Support:** Role cards; scaffolded template.
- **Extra challenge:** Audience share of one strong idea.

What we learned

Unit 3 reflection • Globalisation

WHAT WE LEARNED

- [] I can sketch a supply chain and name interdependence.
- [] I can explain fast idea travel and its risks.
- [] I can discuss cultural mix with respect.
- [] I can name winners-and-losers questions.
- [] I can identify a borderless problem.
- [] I can state a personal global-citizen action.

LOOKING AHEAD

What is one careful question you want to take into the world of work?

TEACHER NOTES

- **Objective:** Self-check and forward link.
- **Do:** Pupils tick honestly; share one star and one wish.
- **Listen / Correct:** Evidence of learning, not perfection.
- **Support:** Revisit weak outcome with a short task.
- **Extra challenge:** Write one goal for the next unit.

Unit opener

Unit 4 opener • The world of work

Unit 4 of 6 • Look Outwards • Global Citizens

The world of work

THE BIG QUESTION

How is work changing, and which skills will still matter?

GETTING STARTED

Sofia turns a T-shirt label inside out and reads a country name. Mateo asks why his cousin works from a laptop in Porto while another relative works in a bakery that cannot leave the street. Jamal wonders which jobs robots already do. Inês opens a folder labelled "skills I am building". Before they invent futures, they list ten jobs they know and star which ones need a physical place. Then the big question: how is work changing, and which skills will still matter?

TEACHER NOTES

- **Objective:** Warm up with the big question and unit story.
- **Do:** Read opener; pair talk 1–2 minutes each.
- **Listen / Correct:** Full sentences; respectful listening.
- **Support:** Sentence frame: I think... because...
- **Extra challenge:** One extra why question.

In this unit you will

Unit 4 · The world of work

IN THIS UNIT YOU WILL

1. Explain the global division of labour with dignity.

Work is shared across countries; workers are people.

2. Describe flexible and remote work fairly.

Not every job can leave a physical place.

3. Discuss automation and AI without panic.

Machines change tasks; people still plan, care and invent.

4. Connect green jobs and ethical choices.

Work and shopping can care for Earth.

5. Practise an entrepreneurial mindset sized for age.

Problems can become chances to help.

6. Start a skills portfolio habit.

Learning does not stop at the end of a unit.

Look closer (QR) · Unit 4

Ask a **grown-up** to hold the device.

ILO youth / work overview (adult-held)

TEACHER NOTES

- **Objective:** Share outcomes and QR (adult-held).
- **Do:** Read outcomes; tick one personal goal.
- **Listen / Correct:** Pupils restate one outcome.
- **Support:** Highlight three focus outcomes if needed.
- **Extra challenge:** Link one outcome to a local example.

4.1 • The global division of labour

Unit 4 • 4.1 • The global division of labour

4.1 • The global division of labour

DO YOU REMEMBER?

Why might clothes sold in Portugal be sewn in another country?

BOOTS ON!

In pairs, invent a simple T-shirt journey with four countries maximum. Name one job at each step.

LET US FIND OUT

The **division of labour** means sharing different jobs among people or places.

A **global** division of labour means materials, design, sewing, shipping and selling can happen in different countries. Bangladesh, for example, is a major exporter of garments. That fact is geography, not a joke about people.

Year 6 treats workers with dignity. Low prices in a shop can hide long chains of work. Asking "Who made this, and under what conditions?" is a fair global-citizen question, not a reason to insult a country.

TEACHER NOTES

- **Objective:** Introduce 4.1: The global division of labour.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

4.1 · Your turn

4.1 · Your turn · The global division of labour

YOUR TURN

1. Write a one-sentence definition of division of labour.
2. Label four steps for a school bag: design · materials · making · selling. Add a possible country for two steps (plausible, not random insults).
3. Write one dignity rule for talking about workers in other places.
4. Explain why "cheap" and "fair" are not always the same.

DID YOU KNOW?

Bangladesh is a major garments exporter. Many other countries make clothes too; labels vary by product.

LOOK OUTWARDS NOTES

Draw a T-shirt with four journey arrows. On the back: one fair shopper question.

TEACHER NOTES

- **Objective:** Practise and reflect on 4.1.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

4.2 • Flexible and remote work

Unit 4 • 4.2 • Flexible and remote work

4.2 • Flexible and remote work

DO YOU REMEMBER?

Which jobs can be done from home, and which cannot?

BOOTS ON!

Sort cards (or list): remote possible or not? nurse • software designer • bus driver • baker • online tutor • firefighter.

LET US FIND OUT

Remote work means working away from a central office, often online. Some jobs fit screens well. Others need hands, tools, patients, kitchens or vehicles on site. The "gig" idea means short projects or flexible tasks rather than one fixed schedule. Flexible work can help families and reduce travel. It can also blur home and work time. Year 6 does not decide careers. You practise sorting jobs by place, tools and people contact.

TEACHER NOTES

- **Objective:** Introduce 4.2: Flexible and remote work.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

4.2 · Your turn

Your turn · 4.2 · Flexible and remote work

4.2 · Your turn · Flexible and remote work

YOUR TURN

1. Sort five jobs into remote-friendly / place-needed / mixed.
2. Write one benefit and one risk of remote work for a family.
3. Explain why a hospital job is hard to fully remote.
4. Invent a fair class rule for online group work (listening, camera optional, kind chat).

FROM ANOTHER CHAIR

- *Mateo says:* Everyone should work from home.
- *Jamal says:* Many essential jobs need people in a place.
- *Then:* Which local jobs keep your town running if everyone stayed home?

TEACHER NOTES

- **Objective:** Practise and reflect on 4.2.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

4.3 • Automation and AI at work

Unit 4 • 4.3 • Automation and AI at work

4.3 • Automation and AI at work

DO YOU REMEMBER?

What is one task a machine already does better than a human hand?

BOOTS ON!

List three tasks you would happily give a robot and three you would keep for humans. Share one of each.

LET US FIND OUT

Automation uses machines for tasks people used to do. Factories often use robots for heavy or precise work; humans still design, maintain, plan and care. **AI** can predict patterns (for example sorting images), but it is not a person with feelings. Year 6 avoids panic stories. Machines change tasks. People still need judgement, kindness, creativity and responsibility. Some new jobs appear because machines exist (repair, design, safety checks).

TEACHER NOTES

- **Objective:** Introduce 4.3: Automation and AI at work.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

4.3 · Your turn

4.3 · Your turn · Automation and AI at work

YOUR TURN

1. Write one task that is good for a machine and why (heavy, repetitive, precise).
2. Write one task that needs a human and why (care, trust, moral choice).
3. Explain "AI is a tool, not a classmate" in your own words.
4. Invent a school rule for using helpful tech without replacing thinking.

DID YOU KNOW?

Factories use robots for heavy or precise tasks; people still plan routes, fix machines and make final quality checks.

LOOK OUTWARDS NOTES

Robot / Human Venn diagram: three unique each side, two shared skills in the middle.

ONE STEP FURTHER

Ask an adult one way technology changed their work or a family member's work. Note one skill that still mattered.

TEACHER NOTES

- **Objective:** Practise and reflect on 4.3.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

4.4 • Green jobs and ethical choices

Unit 4 • 4.4 • Green jobs and ethical choices

4.4 • Green jobs and ethical choices

DO YOU REMEMBER?

What is one job that helps protect nature or clean energy?

BOOTS ON!

Brainstorm green jobs for two minutes (solar, recycling, parks, water, repair). Circle three that could exist near you.

LET US FIND OUT

A **green job** helps protect or restore the environment: renewable energy, repair, recycling systems, nature care, cleaner transport planning. **Ethical consumerism** means choosing products with care for people and planet, not only price.

Year 6 choices are sized for age: reduce waste, repair when possible, notice labels, support school eco projects. Perfect purity is not required. Better questions are.

TEACHER NOTES

- **Objective:** Introduce 4.4: Green jobs and ethical choices.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

4.4 · Your turn

4.4 · Your turn · Green jobs and ethical choices

YOUR TURN

1. Define green job in one sentence.
2. List three green jobs and one skill each needs.
3. Write one shopping or school choice that is more ethical than a wasteful option.
4. Explain why "buy nothing ever" is hard, but "buy with care" is a skill.

FROM ANOTHER CHAIR

- *Sofia says:* Only big companies can help the planet.
- *Inês says:* Small daily choices add up when many people make them.
- *Then:* What is one small choice your class can measure this month?

LOOK OUTWARDS NOTES

Poster corner: Green job of the week + one ethical choice tip.

TEACHER NOTES

- **Objective:** Practise and reflect on 4.4.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

4.5 • Entrepreneurial mindset

Unit 4 • 4.5 • Entrepreneurial mindset

4.5 • Entrepreneurial mindset

DO YOU REMEMBER?

When did you solve a small problem for someone else?

BOOTS ON!

Spot three problems in school life (litter, lost pencils, noisy corridors). Star one that a kind project could improve.

LET US FIND OUT

An **entrepreneurial mindset** means noticing problems and designing useful responses. It is not only about making money. It can be a club, a repair station, a welcome pack for new pupils, or a fair poster campaign.

Year 6 enterprise is small, kind and checked with adults. You ask: Who benefits? What could go wrong? What evidence will show it helped?

TEACHER NOTES

- **Objective:** Introduce 4.5: Entrepreneurial mindset.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

4.5 · Your turn

4.5 · Your turn · Entrepreneurial mindset

YOUR TURN

1. Name one school problem and who it affects.
2. Propose one solution in three steps.
3. List two risks and how you would reduce them.
4. Write one measure of success (how you will know it worked).

LOOK OUTWARDS NOTES

Problem → idea → first tiny test. Fill the three boxes.

TEACHER NOTES

- **Objective:** Practise and reflect on 4.5.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

4.6 • Lifelong learning and skills portfolio

Unit 4 • 4.6 • Lifelong learning and skills portfolio

4.6 • Lifelong learning and skills portfolio

DO YOU REMEMBER?

What is one skill you are better at now than last year?

BOOTS ON!

Write three skills: one academic, one social, one practical. Share one you want to grow.

LET US FIND OUT

Lifelong learning means skills keep growing after a single lesson or even after school years. A **skills portfolio** is a living list of what you can do and what you are learning next. Many countries encourage lifelong learning in education policy. Your portfolio is not a finished CV. It is a habit: notice skills, practise them, collect evidence (a project photo, a reflection, a teacher comment).

TEACHER NOTES

- **Objective:** Introduce 4.6: Lifelong learning and skills portfolio.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

4.6 · Your turn

4.6 · Your turn · Lifelong learning and skills portfolio

YOUR TURN

1. Start a portfolio page: five skills you already have.
2. Add three skills you want by the end of Year 6.
3. For one skill, write how you will practise it this week.
4. Explain why "I am not good at X yet" is more useful than "I am bad at X".

DID YOU KNOW?

Lifelong learning policies exist in many countries because work and tools keep changing.

LOOK OUTWARDS NOTES

Portfolio cover: name, year, motto, three skill stars.

TEACHER NOTES

- **Objective:** Practise and reflect on 4.6.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

Project

Unit 4 project • The world of work

PROJECT

Skills portfolio starter. Make a four-page mini portfolio: cover, skills I have, skills I am building, one project evidence page (photo space + reflection). Share in a three-minute partner interview using active listening from Unit 1.

TEACHER NOTES

- **Objective:** Unit product with clear success criteria.
- **Do:** Pairs or small groups; time-box sharing.
- **Listen / Correct:** Clarity, kindness, evidence.
- **Support:** Role cards; scaffolded template.
- **Extra challenge:** Audience share of one strong idea.

What we learned

Unit 4 reflection • The world of work

WHAT WE LEARNED

- [] I can explain global work with dignity.
- [] I can sort remote and place-based jobs.
- [] I can discuss machines without panic.
- [] I can name green jobs and ethical choices.
- [] I can propose a small enterprise idea.
- [] I can start a skills portfolio.

LOOKING AHEAD

What is one skill you want ready before you think about countries working together?

TEACHER NOTES

- **Objective:** Self-check and forward link.
- **Do:** Pupils tick honestly; share one star and one wish.
- **Listen / Correct:** Evidence of learning, not perfection.
- **Support:** Revisit weak outcome with a short task.
- **Extra challenge:** Write one goal for the next unit.

Unit opener

Unit 5 opener • Working with other countries

Unit 5 of 6 • Look Outwards • Global Citizens

Working with other countries

THE BIG QUESTION

How can countries cooperate when they do not always want the same thing?

GETTING STARTED

Inês draws two islands that share a river. Sofia wants clean water for both. Mateo wants a dam for energy on his side. Jamal asks who speaks first when they disagree. Before they invent a fight, they list three ways the islands could talk. Portugal is a member of the **European Union** and the **United Nations**: real examples of countries working together. Then the big question: how can countries cooperate when they do not always want the same thing?

TEACHER NOTES

- **Objective:** Warm up with the big question and unit story.
- **Do:** Read opener; pair talk 1–2 minutes each.
- **Listen / Correct:** Full sentences; respectful listening.
- **Support:** Sentence frame: I think... because...
- **Extra challenge:** One extra why question.

In this unit you will

Unit 5 · Working with other countries

IN THIS UNIT YOU WILL

1. **Explain national interests in simple terms.**

Countries prioritise goals for their people.

2. **Describe diplomacy tools.**

Talk, treaties and organisations before force.

3. **Discuss shared resources fairly.**

Rivers, seas and sky need compromise.

4. **Define soft power with examples.**

Influence through culture, sport and ideas.

5. **Judge helpful versus harmful "help" in crises.**

Dignity matters in disaster response.

6. **Imagine future cooperation spaces.**

Space and cyberspace still need rules.

Look closer (QR) · Unit 5

Ask a **grown-up** to hold the device.

UN cooperation overview (adult-held)

TEACHER NOTES

- **Objective:** Share outcomes and QR (adult-held).
- **Do:** Read outcomes; tick one personal goal.
- **Listen / Correct:** Pupils restate one outcome.
- **Support:** Highlight three focus outcomes if needed.
- **Extra challenge:** Link one outcome to a local example.

5.1 • National interests

Unit 5 • 5.1 • National interests

5.1 • National interests

DO YOU REMEMBER?

What does a country need to keep people safe and well?

BOOTS ON!

In groups, invent a small country. Write three goals it might prioritise (food, safety, trade, culture...). Star the top one.

LET US FIND OUT

A **national interest** is a goal a country prioritises for its people: safety, health, fair trade, environment, culture. Interests can overlap (everyone wants clean air) and can clash (who gets the water first).

Understanding interests is not "taking sides" like a sports match. It is learning why talks start from different places. Year 6 stays respectful: no enemy stories, no hate of whole peoples.

TEACHER NOTES

- **Objective:** Introduce 5.1: National interests.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

5.1 · Your turn

5.1 · Your turn · National interests

YOUR TURN

1. Define national interest in one sentence.
2. List three interests Portugal might care about (your best careful guesses).
3. Write one interest two neighbouring countries might share.
4. Write one interest that might cause tension, and one calm question to open talks.

LOOK OUTWARDS NOTES

Three circles: Safety · Fair trade · Environment. Add one example note in each.

TEACHER NOTES

- **Objective:** Practise and reflect on 5.1.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

5.2 • The toolbox of diplomacy

Unit 5 • 5.2 • The toolbox of diplomacy

5.2 • The toolbox of diplomacy

DO YOU REMEMBER?

What is better than fighting when two people want the same ball?

BOOTS ON!

Role-play sixty seconds: two groups want the same playground time. Use only talk tools (listen, propose, compromise). No winners by shouting.

LET US FIND OUT

Diplomacy is managing relationships between countries through talk, meetings and agreements. A **treaty** is a written agreement. Organisations such as the United Nations give countries a place to discuss.

Diplomacy tools include listening, proposing options, writing clear rules, and finding compromises. Force is not the Year 6 focus. Understanding talk tools is.

TEACHER NOTES

- **Objective:** Introduce 5.2: The toolbox of diplomacy.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

5.2 • Your turn

Your turn • 5.2 • The toolbox of diplomacy

5.2 • Your turn • The toolbox of diplomacy

YOUR TURN

1. List four diplomacy tools in your own words.
2. Explain what a treaty is.
3. Write a three-line mini treaty for two classes sharing a science lab.
4. Name one reason countries join organisations like the UN.

DID YOU KNOW?

Portugal is a member of the European Union and the United Nations.

FROM ANOTHER CHAIR

- *Mateo says:* The strongest side should decide.
- *Inês says:* Clear agreements protect both sides later.
- *Then:* Why might a written treaty help more than a quick shout?

TEACHER NOTES

- **Objective:** Practise and reflect on 5.2.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

5.3 • Shared resources

Unit 5 • 5.3 • Shared resources

5.3 • Shared resources

DO YOU REMEMBER?

Who should have a say about a river that crosses two towns?

BOOTS ON!

Map a shared lake between two villages. Each village lists needs. Find one rule both can accept.

LET US FIND OUT

Some resources are **shared**: rivers, seas, air, fish stocks, satellite paths.

If upstream users take everything, downstream users suffer. Fair rules and compromise protect everyone over time.

Year 6 studies principles: voice for all sides, evidence about harm, rules that can be checked. We do not invent wars. We invent fair agreements.

TEACHER NOTES

- **Objective:** Introduce 5.3: Shared resources.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

5.3 · Your turn

5.3 · Your turn · Shared resources

YOUR TURN

1. Name three shared resources.
2. Explain why downstream communities need a voice.
3. Write two rules for a shared classroom water fountain that feel fair.
4. Invent a fair schedule for two villages sharing a fishing lake.

LOOK OUTWARDS NOTES

River diagram: upstream / downstream. Add one right and one duty each side.

TEACHER NOTES

- **Objective:** Practise and reflect on 5.3.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

5.4 • Soft power

Unit 5 • 5.4 • Soft power

5.4 • Soft power

DO YOU REMEMBER?

Can a song, a sport or a book make people curious about another country?

BOOTS ON!

List three Portuguese cultural exports (music, food, football, language, festivals...). Share which one travels farthest in your view.

LET US FIND OUT

Soft power is influence through culture, sport, education and ideas rather than force. The term is often linked to the scholar Joseph Nye. A country can become interesting because of its films, athletes, universities or language.

Soft power is not a trick to "win" people as prizes. Year 6 uses it to notice how attraction and respect work differently from threats. Your school can show soft power too: welcome, excellence, kindness.

TEACHER NOTES

- **Objective:** Introduce 5.4: Soft power.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

5.4 · Your turn

5.4 · Your turn · Soft power

YOUR TURN

1. Define soft power in one sentence.
2. Give two global examples (sport, music, stories) without mocking anyone.
3. Give one Portuguese example that can attract interest fairly.
4. Explain how soft power differs from force.

DID YOU KNOW?

The term soft power was popularised by Joseph Nye to describe influence without military force.

LOOK OUTWARDS NOTES

Poster: Soft power is... / Soft power is not...

ONE STEP FURTHER

With an adult, find one international event (sport, festival, science) that Portugal hosts or joins. Note how it might build respect.

TEACHER NOTES

- **Objective:** Practise and reflect on 5.4.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

5.5 • Crisis response

Unit 5 • 5.5 • Crisis response

5.5 • Crisis response

DO YOU REMEMBER?

What help is useful after a flood or earthquake, and what might get in the way?

BOOTS ON!

Sort helpful or unhelpful after a disaster: food and water • untrained crowds blocking roads • medical teams • rumours • listening to local leaders.

LET US FIND OUT

When disaster or conflict hits, countries and organisations can send ****humanitarian aid****: food, shelter, rescue, medical care. Groups such as the Red Cross and Red Crescent are widely known for humanitarian response.

Help should protect **dignity**. Dumping unwanted goods can create waste. Spreading rumours can harm. Year 6 stays age-safe: no graphic conflict detail. Focus on careful help and respect for people in crisis.

TEACHER NOTES

- **Objective:** Introduce 5.5: Crisis response.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

5.5 · Your turn

5.5 · Your turn · Crisis response

YOUR TURN

1. Define humanitarian aid in your own words.
2. List three helpful responses and two harmful ones.
3. Explain why listening to local needs matters.
4. Write one class fundraising rule that protects dignity (no pity posters that shame people).

FROM ANOTHER CHAIR

- *Sofia says:* Any help is good help.
- *Jamal says:* The right help at the right time is better.
- *Then:* How can you check what is needed before you act?

LOOK OUTWARDS NOTES

Checklist card: Ask · Listen · Send what is needed · Respect dignity.

TEACHER NOTES

- **Objective:** Practise and reflect on 5.5.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

5.6 • Future cooperation: space and cyberspace

Unit 5 • 5.6 • Future cooperation: space and cyberspace

5.6 • Future cooperation: space and cyberspace

DO YOU REMEMBER?

Who owns the sky above countries, and who owns the internet?

BOOTS ON!

Two mini debates (two minutes each): (1) Should space junk rules be global? (2) Should cyber bullying across borders have shared school rules? One point each side.

LET US FIND OUT

New places for cooperation include **space** (satellites, research) and **cyberspace** (networks that cross borders). Shared rules help prevent harm: space debris, cyber attacks on hospitals, online crime.

Year 6 does not design international law. You practise the idea: new technology still needs fairness, safety and talk tools from earlier topics.

TEACHER NOTES

- **Objective:** Introduce 5.6: Future cooperation: space and cyberspace.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

5.6 · Your turn

5.6 · Your turn · Future cooperation: space and cyberspace

YOUR TURN

1. Name two future cooperation spaces.
2. Write one risk if there are no shared rules in space.
3. Write one risk if there are no shared norms online across countries.
4. Propose one school-level cyber respect rule that would still make sense in another country.

LOOK OUTWARDS NOTES

Two panels: Space rules we might need · Cyberspace rules we might need.

TEACHER NOTES

- **Objective:** Practise and reflect on 5.6.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

Project

Unit 5 project • Working with other countries

PROJECT

Island treaty. In groups of four, invent two islands that share a river and a digital network. Write a one-page treaty: three resource rules, two diplomacy steps for disputes, one soft-power exchange (sport or culture), one crisis plan. Present in three minutes.

TEACHER NOTES

- **Objective:** Unit product with clear success criteria.
- **Do:** Pairs or small groups; time-box sharing.
- **Listen / Correct:** Clarity, kindness, evidence.
- **Support:** Role cards; scaffolded template.
- **Extra challenge:** Audience share of one strong idea.

What we learned

Unit 5 reflection • Working with other countries

WHAT WE LEARNED

- [] I can explain national interests carefully.
- [] I can name diplomacy tools and treaties.
- [] I can discuss shared resources fairly.
- [] I can define soft power with examples.
- [] I can judge helpful crisis responses.
- [] I can imagine rules for space and cyberspace.

LOOKING AHEAD

What is one cooperation habit you want to take into the digital world unit?

TEACHER NOTES

- **Objective:** Self-check and forward link.
- **Do:** Pupils tick honestly; share one star and one wish.
- **Listen / Correct:** Evidence of learning, not perfection.
- **Support:** Revisit weak outcome with a short task.
- **Extra challenge:** Write one goal for the next unit.

Unit opener

Unit 6 opener • Digital world

Unit 6 of 6 • Look Outwards • Global Citizens

Digital world

THE BIG QUESTION

How do we stay human, fair and free in a world designed to keep us online?

GETTING STARTED

Jamal times how long a "quick check" of a phone becomes ten minutes. Sofia asks where a message goes after she presses send. Mateo wants to make a short class video. Inês pins a sign: "Check before you share". Before they argue about screen time, they map the path of one message from phone to friend. Then the big question: how do we stay human, fair and free in a world designed to keep us online?

TEACHER NOTES

- **Objective:** Warm up with the big question and unit story.
- **Do:** Read opener; pair talk 1–2 minutes each.
- **Listen / Correct:** Full sentences; respectful listening.
- **Support:** Sentence frame: I think... because...
- **Extra challenge:** One extra why question.

In this unit you will

Unit 6 · Digital world

IN THIS UNIT YOU WILL

1. Explain the internet as a network, not magic.

Devices, cables, routers and servers carry data.

2. Recognise attention designs.

Scrolls and notifications are product choices.

3. Use media literacy as a digital detective.

Check claims before you share.

4. Practise digital citizenship rights and duties.

Kindness, privacy and telling a trusted adult.

5. Move from consumer to careful creator.

Permissions and credit matter.

6. Describe AI as a pattern tool, not a person.

Useful, limited, and needing human judgement.

Look closer (QR) · Unit 6

Ask a **grown-up** to hold the device.

Safer Internet / digital care (adult-held)

TEACHER NOTES

- **Objective:** Share outcomes and QR (adult-held).
- **Do:** Read outcomes; tick one personal goal.
- **Listen / Correct:** Pupils restate one outcome.
- **Support:** Highlight three focus outcomes if needed.
- **Extra challenge:** Link one outcome to a local example.

6.1 • How the internet really works

Unit 6 • 6.1 • How the internet really works

6.1 • How the internet really works

DO YOU REMEMBER?

Is the internet a cloud of magic, or a system of machines?

BOOTS ON!

In pairs, draw the journey of a photo from your device to a cousin in another city. Label every step you can guess.

LET US FIND OUT

The internet is a **network** of linked systems. Your device talks to a router, then across cables and networks to servers that store or forward data. Undersea **fibre cables** carry a large share of international internet traffic. Satellites help too, but much of the "cloud" is physical machines in buildings.

Knowing the path makes the internet less mysterious and more something you can question: who controls a step, who can see data, what happens if a cable fails.

TEACHER NOTES

- **Objective:** Introduce 6.1: How the internet really works.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

6.1 · Your turn

6.1 · Your turn · How the internet really works

YOUR TURN

1. Order these: device · router · wider network · server · friend device.
2. Write one sentence that banishes "magic cloud" thinking.
3. Explain why undersea cables matter for international chat.
4. Write one privacy question you should ask before sharing a photo.

DID YOU KNOW?

Undersea fibre-optic cables carry a large share of international internet traffic between continents.

LOOK OUTWARDS NOTES

Path diagram with five boxes. Star the step you understand least and write one question.

TEACHER NOTES

- **Objective:** Practise and reflect on 6.1.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

6.2 • The attention economy

Unit 6 • 6.2 • The attention economy

6.2 • The attention economy

DO YOU REMEMBER?

What design makes an app hard to put down?

BOOTS ON!

List three app or game features that pull attention (endless scroll, streaks, bright notifications). No brand-bashing speeches: just features.

LET US FIND OUT

The **attention economy** means many businesses earn from your time and focus. Designs such as endless scroll, autoplay and frequent notifications are **choices**, not accidents. They can be useful reminders or hooks that stretch a "quick look". Year 6 does not ban joy. You learn to notice the design, set personal boundaries, and use adult help for settings. Your attention is valuable. You can spend it on purpose.

TEACHER NOTES

- **Objective:** Introduce 6.2: The attention economy.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

6.2 · Your turn

6.2 · Your turn · The attention economy

YOUR TURN

1. Define attention economy in one sentence.
2. Match feature → effect: endless scroll · streak · loud notification (possible effects: longer use, fear of missing out, interrupt focus).
3. Write two personal boundary ideas (timer, no phones at dinner, adult-held night charger).
4. Explain why "just one more" can be a design success and a human problem.

FROM ANOTHER CHAIR

- *Mateo says:* If it is fun, the design is fine.
- *Inês says:* Fun can still be designed to overuse you.
- *Then:* How will you know when fun becomes stuck?

LOOK OUTWARDS NOTES

My attention rules: three lines you can keep.

TEACHER NOTES

- **Objective:** Practise and reflect on 6.2.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

6.3 • Misinformation and media literacy

Unit 6 • 6.3 • Misinformation and media literacy

6.3 • Misinformation and media literacy

DO YOU REMEMBER?

What is the difference between a fact you checked and a claim you only saw once?

BOOTS ON!

Teacher shows three sample claims (invented, age-safe). Pupils sort: trust / check / reject, with one reason each.

LET US FIND OUT

Misinformation is false or misleading information shared as if it were true (sometimes by mistake). **Media literacy** is the skill of checking before you trust or share.

Digital detective steps:

1. **Stop** (do not forward yet).
2. **Source** (who made this?).
3. **Evidence** (what proof?).
4. **Cross-check** (does a trusted place say the same?).

Emotions are clues: fear and anger can rush you. Year 6 detectives slow down.

TEACHER NOTES

- **Objective:** Introduce 6.3: Misinformation and media literacy.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

6.3 • Your turn

Your turn • 6.3 • Misinformation and media literacy

6.3 • Your turn • Misinformation and media literacy

YOUR TURN

1. Write the four detective steps in your own words.
2. Invent one claim that fails the source step.
3. Invent one claim that needs evidence before you believe it.
4. Write a kind reply you could send instead of forwarding a shaky claim.

DID YOU KNOW?

Many European programmes teach children media literacy so they can spot false claims online.

TEACHER NOTES

- **Objective:** Practise and reflect on 6.3.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

6.4 • Digital citizenship rights and responsibilities

Unit 6 • 6.4 • Digital citizenship rights and responsibilities

6.4 • Digital citizenship rights and responsibilities

DO YOU REMEMBER?

What rights should you have online, and what duties protect others?

BOOTS ON!

Complete pairs: right to privacy → duty to... / right to be heard → duty to...

LET US FIND OUT

Digital citizenship means taking part online with rights and duties. Rights can include safety, privacy and a voice. Duties include respect, not sharing others' private details, and telling a trusted adult when something feels wrong. School e-safety policy leads. This book supports it; it does not replace it. Global community online means a message can reach far. Kindness and caution travel with it.

TEACHER NOTES

- **Objective:** Introduce 6.4: Digital citizenship rights and responsibilities.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

6.4 · Your turn

6.4 · Your turn · Digital citizenship rights and responsibilities

YOUR TURN

1. Write two digital rights and two matching duties.
2. List three things you should never share about a classmate.
3. Write the name of a trusted adult you could tell (in real life; do not publish it online).
4. Invent one class netiquette rule for group chats.

LOOK OUTWARDS NOTES

Shield drawing: rights inside, duties as the outer ring.

TEACHER NOTES

- **Objective:** Practise and reflect on 6.4.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

6.5 • From consumer to creator

Unit 6 • 6.5 • From consumer to creator

6.5 • From consumer to creator

DO YOU REMEMBER?

What is the difference between watching a video and making one carefully?

BOOTS ON!

Plan a ten-second kind class clip: purpose, one fact, one permission you need.

LET US FIND OUT

The **creator economy** is the world of people making and sharing content. Year 6 creators start small: posters, short videos, podcasts, code demos. Rules matter:

- ask permission before filming people
- credit ideas and music you did not make
- check facts before you publish
- remember that once shared, control is limited

Creating is power. Responsibility is the other half of power.

TEACHER NOTES

- **Objective:** Introduce 6.5: From consumer to creator.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

6.5 • Your turn

6.5 • Your turn • From consumer to creator

YOUR TURN

1. List three creator permissions you might need.
2. Write one credit line for a classmate's idea you used.
3. Plan a mini creation: audience • message • one fact • one kindness check.
4. Explain why "I found it online so I can reuse it" is often false.

FROM ANOTHER CHAIR

- *Sofia says:* Creators should post anything funny.
- *Jamal says:* Creators should protect people's dignity first.
- *Then:* What would you refuse to post even if it might get laughs?

LOOK OUTWARDS NOTES

Creator checklist: purpose • permission • credit • fact • dignity.

TEACHER NOTES

- **Objective:** Practise and reflect on 6.5.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

6.6 • Artificial intelligence

Unit 6 • 6.6 • Artificial intelligence

6.6 • Artificial intelligence

DO YOU REMEMBER?

Can a computer "think" like a person, or does it predict patterns?

BOOTS ON!

Sort: good AI helper / risky if trusted blindly: spell-check • chat bot homework answers • face filters • medical diagnosis without a doctor.

LET US FIND OUT

Artificial intelligence (AI) often means computer systems that learn patterns from data to make predictions or generate text and images. AI is a **tool**, not a human mind with feelings, rights or lived experience.

Useful: help draft, sort, translate with adult care. Risky: invented "facts", bias from training data, over-trust, privacy leaks. Year 6 rule: **you** stay responsible for what you hand in. Check with humans and trusted sources.

AI cannot replace your kindness, your questions, or your duty to tell the truth.

TEACHER NOTES

- **Objective:** Introduce 6.6: Artificial intelligence.
- **Do:** Warm question, Boots on, then Let us find out.
- **Listen / Correct:** Key vocabulary used correctly.
- **Support:** Re-read teach paragraph in pairs.
- **Extra challenge:** One extra example from school life.

6.6 · Your turn

6.6 · Your turn · Artificial intelligence

YOUR TURN

1. Define AI in one careful sentence for a Year 4 child.
2. List two good uses and two risks.
3. Write a classroom rule for AI tools (if your school allows any).
4. Explain why "the AI said so" is not enough evidence.

DID YOU KNOW?

Many AI systems predict likely next words or patterns; they do not understand the world the way a person does.

LOOK OUTWARDS NOTES

Tool label for AI: helps with... / still needs a human for...

TEACHER NOTES

- **Objective:** Practise and reflect on 6.6.
- **Do:** Your turn first; then chair or notes.
- **Listen / Correct:** Reasons with because; respectful language.
- **Support:** Sentence starters; reduce to two tasks if needed.
- **Extra challenge:** One step further if ready.

Project

Unit 6 project • Digital world

PROJECT

Digital citizen kit. In pairs, produce a one-page kit for younger pupils:
(1) how a message travels, (2) attention red flags, (3) four detective steps,
(4) rights and duties icons, (5) AI caution line. Present in two minutes. A grown-up
checks any links before they are shared.

TEACHER NOTES

- **Objective:** Unit product with clear success criteria.
- **Do:** Pairs or small groups; time-box sharing.
- **Listen / Correct:** Clarity, kindness, evidence.
- **Support:** Role cards; scaffolded template.
- **Extra challenge:** Audience share of one strong idea.

What we learned

Unit 6 reflection • Digital world

WHAT WE LEARNED

- [] I can explain the internet as a network.
- [] I can notice attention designs and set a boundary.
- [] I can use four detective steps on a claim.
- [] I can pair digital rights with duties.
- [] I can create with permission and credit.
- [] I can describe AI as a tool, not a person.

LOOKING AHEAD

What is one digital habit you will keep as you leave Upper Primary?

TEACHER NOTES

- **Objective:** Self-check and forward link.
- **Do:** Pupils tick honestly; share one star and one wish.
- **Listen / Correct:** Evidence of learning, not perfection.
- **Support:** Revisit weak outcome with a short task.
- **Extra challenge:** Write one goal for the next unit.

Word list

- active listening - listening to understand, then checking what you heard
- body language - messages sent by face, hands and posture
- cultural code - an unwritten habit about how people speak and behave
- digital citizenship - rights and duties when you take part online
- persuasion - inviting someone to agree using reasons and evidence
- tone - how words sound (kind, sharp, tired)

Unit 2 · Obeying the law

- consequence - what follows when a rule or law is broken
- human rights - basic entitlements every person should have
- law - a formal rule made for a community or country
- responsibility - a duty that protects other people's rights
- right - something you are entitled to in a fair community

Unit 3 · Globalisation

- global citizen - someone who cares about fairness beyond their own street
- globalisation - growing links between places through trade, ideas and travel
- hybrid culture - local and global styles mixed together
- interdependence - relying on one another across a chain or border
- supply chain - the path from materials to finished product to buyer

Unit 4 · The world of work

- automation - using machines to do tasks people used to do
- division of labour - sharing different jobs among people or countries
- green job - work that helps protect or restore the environment
- remote work - working away from a central office, often online
- skills portfolio - a living list of what you can do and are learning

TEACHER NOTES

- **Objective:** Review key terms.
- **Do:** Quiz oral definitions.
- **Listen / Correct:** Own words, not copy.
- **Support:** Picture cards.
- **Extra challenge:** Add one new word from class talk.

Word list (continued)

Unit 5 · Working with other countries

- diplomacy - managing country relationships through talk and agreements
- humanitarian aid - help sent to people in crisis (food, shelter, rescue)
- national interest - goals a country prioritises for its people
- soft power - influence through culture, sport and ideas rather than force
- treaty - a written agreement between countries

Unit 6 · Digital world

- artificial intelligence (AI) - computer systems that learn patterns to make predictions
- attention economy - businesses earning from your time and focus online
- misinformation - false or misleading information shared as if it were true
- network - linked systems that carry data between devices
- media literacy - skills for checking sources before you trust or share

Answers

Most tasks are open. Value reasoning, evidence and respectful language over a single key. Where a sort or rewrite has a clear set, teachers may accept equivalent wording.

UNIT 1 · IMPROVING COMMUNICATIONS

Topic	Guide
1.1	Communication = words + tone + body + listening (own words OK); system view
1.2	Bridge tools: gestures, drawings, patience, interpreter; apps need adult care
1.4 rewrite	Clearer/kinder without insult; private vs public distinction
1.5	Claim + evidence + counter-view structure
1.6	Open vs closed questions; say-it-back; body clues of listening

UNIT 2 · OBEYING THE LAW

Topic	Guide
2.1	Laws aim at safety/fairness/predictability
2.2	Rights paired with duties/responsibilities
2.3	Luxury wants are not human rights; food, education, protection are
2.4-2.5	Fair consequences + no gossip; cases are principles

UNIT 3 · GLOBALISATION

Topic	Guide
3.1	Multi-stage chain plausible; risk marked; interdependence named
3.3	Sameness vs local mix both discussed respectfully
3.4	Gains and risks both named
3.5	Borderless problems need shared care, not blame of peoples
3.6	Local action + learning goal as global-citizen steps

UNIT 4 · THE WORLD OF WORK

Topic	Guide
4.1	Multi-country making; dignity for workers

Topic	Guide
4.2	Remote possible / not possible sorts with reasons
4.3	Dangerous/precise task vs care/creativity task
4.4-4.6	Open; portfolio and enterprise sized for age 10-11

TEACHER NOTES

- **Objective:** Guide answers, not only keys.
- **Do:** Use after pupils try.
- **Listen / Correct:** Accept equivalent wording.
- **Support:** n/a
- **Extra challenge:** n/a

Answers (continued)

UNIT 5 • WORKING WITH OTHER COUNTRIES

Topic	Guide
5.1-5.2	Interests + diplomacy tools
5.3	Shared resource rules; downstream voice
5.4	Soft power = attraction, not threat
5.5	Helpful vs harmful "help"
5.6	Space/cyber need cross-border rules

UNIT 6 • DIGITAL WORLD

Topic	Guide
6.1	Device-router-network-server path; cables not magic
6.2	Design tricks + personal boundary
6.3	Four-step claim check
6.4	Rights + duties + tell an adult
6.5-6.6	Creator permissions; AI = pattern tool, not person

Unit 6

Claim	Source	Notes	Checked
Undersea fibre cables carry large share of international internet traffic	Public infrastructure knowledge		2026-08-10
Attention designs (scroll, notifications) are product choices	Media literacy consensus	No single brand attack	2026-08-10
AI often predicts patterns; not a human mind	High-level AI literacy		2026-08-10
QR: Better Internet for Kids hub	betterinternetforkids.eu	Adult holds device	2026-08-10

House notes

- Invented Look Outwards Club scenes are teaching fiction.
- Case frames in Unit 2 are invented for discussion, not reports of private incidents.
- No continuous prose copied from Cambridge/Collins Input PDFs.
- Refresh any live statistics before assembly quotes.

For teachers

INTENT

This Student Book follows the Edu360 Global Y6 topic sequence (six chapters; Unit 2 has five topics, others six). Prose and activities are original to Prime Books. Input files are **scope and sequence only**.

PEDAGOGY MODEL

Closest to **Year 5 Global Perspectives** Wider Horizons energy:

- Look Outwards Club cast (Inês, Jamal, Sofia, Mateo)
- Big question + Getting started on each unit opener
- Per topic: Do you remember? · Boots on! · Let us find out · Your turn · Look Outwards notes
- Tools: Did you know? · From another chair · One step further · Project
- Language and task demand lifted for **ages 10-11** (bridge year)

TYPE AND LAYOUT

- Body floor **12pt** (DEC-037); this title targets ~12.5pt for comfort
- Trim 210 x 270 mm; page budget guideline **130-140**
- White interior stock; cover-led violet/earth GP palette from FRONT_BOOK_COVER

HOUSE RULES

- British English; no em-dashes.
- Enquiry before judgement; Portuguese and global contexts.
- Number facts only after a unit has started.
- Digital units assume school e-safety policy leads; book supports, never replaces it.
- Law unit: no graphic crime detail; no naming real classmates as cases.
- Imprint: Editorial Board present; no Cambridge disclaimer block (house style).

ASSESSMENT IDEAS

- Exit tickets: one fact, one feeling, one action.
- Project rubrics (Units 1, 3, 5, 6): clarity, fairness, evidence, kindness.
- Observation of active listening (Unit 1) and case discussion (Unit 2).
- Skills portfolio (Unit 4) as formative evidence, not career locking.

For teachers (continued)

CURRICULUM NOTE

Independent publication. Map topics to your school Global Perspectives / citizenship plan. The Edu360.xlsx is the scope list used for unit titles only.

A detailed pencil-style illustration of anthropomorphic animals in a classroom. A rabbit sits at a desk with a globe, a squirrel sits next to it, and a frog sits on a chair in the foreground. A mouse is also visible. The scene is set in a room with a window, a picture on the wall, and various school supplies.

PRIME BOOKS

Global Perspectives

Year 6 · Cambridge Primary · Student Manual

Six units, six questions about the world.

Improving communications, obeying the law, globalisation, the world of work, working with other countries, the digital world. Research it, debate it, then act on it.

INSIDE THIS BOOK

- Six units, from law to the digital world
- Research, debate, reflect and act
- Sources checked, never guessed
- A team project in every unit
- QR codes for every unit, adult-supervised
