

Science

Year 6

Cambridge Primary
Student Manual

The background is a detailed, sepia-toned illustration of a laboratory. In the foreground, a rabbit is hunched over a workbench, writing in a notebook with a quill. The workbench is cluttered with various scientific instruments: a large glass flask, a smaller bottle, a mortar and pestle, a magnifying glass, and some papers. In the background, a mouse is visible, looking towards the camera. The shelves are filled with numerous glass bottles and jars of different shapes and sizes. The overall atmosphere is one of a busy, historical scientific workspace.

PRIME BOOKS

Science

Year 6 · Cambridge Primary · Student Manual

Look closely. Ask how do you know.

Real science for curious minds: fair tests, honest results and a modelled enquiry in every topic, from the hedge bank to the experiment bench.

INSIDE THIS BOOK

- A modelled enquiry in every topic
- Real experiments with honest results
- Over 300 things to do, say and draw
- QR codes that open real science beyond the page
- A word list of every science word you meet
