PrimeBooks Gym

Year 10 • Physical Education

Student Course Book — Complete Edition

Athlete mindset • Weekly maps • Differentiation • Tips • Quizzes • Rubrics • Analysis

Academic Year 2026–2027 • Upper Secondary pathway • British English

Teachers: Mr Filipe Baptista • Mr Claudio Pardal

Year 10 is about refining performance and thinking like an athlete: technique under pressure, tactics, leadership and honest analysis.

How this book works

- Weekly learning maps for every unit
- Why it matters at Year 10 (athlete mindset)
- Rules, safety, advanced techniques and simple biomechanics cues
- SUPPORT / CORE / CHALLENGE pathways
- Tactical scenarios and decision trees
- Don't Forget memory tips
- Success criteria + assessment rubrics
- Quizzes with answer keys
- Performance analysis and leadership logs
- Micro home learning for deliberate practice

★ DON'T FORGET — Year 10 athlete habits

These habits define Year 10 excellence.

- Technique must survive pressure — train decisions, not only isolated demos.
- Name the tactic you are using (press, delay, width, disguise, negative split...).
- Lead: one clear cue, fair rotation, include every teammate.
- Analyse with evidence: video notes, tallies, splits, % success.
- Process goals beat outcome-only goals.
- Fair play and safety are high-performance standards.
- British English: practise (verb) / practice (noun).

Your year at a glance

- Term 1 — Unit 1 Futsal • Unit 2 Cross Country
- Term 2 — Unit 3 Athletics • Unit 4 Aerobics

- Term 3 — Unit 5 Korfbal · Unit 6 American Football (non-contact/touch)

Year 10 learner profile

- Perform advanced techniques of six activities with control under pressure.
- Select, apply and justify tactics using precise vocabulary.
- Lead groups: organise drills, coach one cue, give elite feedback.
- Evaluate performance using rubrics, data and SMART process goals.
- Model resilience, inclusion and fair play consistently.

Assessment system

You are assessed on technical skill under pressure, tactical decisions, fitness/PB improvement, communication & leadership, fair play, and analytical reflection. Authentic situations outweigh quiet isolated demos.

Whole-year practical rubric

Level	What it looks like
1 Emerging	Needs support; breaks under pressure; limited awareness.
2 Developing	Skills in drills; inconsistent games; basic talk.
3 Secure (Y10 target)	Technique holds in games; clear tactics; reliable leader-teammate.
4 Mastering	Fluent under pressure; designs systems; elevates others; deep analysis.

★ DON'T FORGET — Assessment days

- Perform under realistic pressure.
- Communicate and lead positively.
- Arrive with strength + process target.
- Effort, respect and honesty are evidence.

Unit 1 — Futsal

Term 1 · High-intensity invasion · Systems · Decision speed

Weekly learning map — Futsal

Year 10 focus: refine technique, think tactically, lead others, analyse performance.

Week	Focus	Must-master	Exit check
1	Rules, court, high-quality first touch	Directed first touch under pressure	10/12 clean receives in live rondo
2	Passing combinations & third-man runs	Pass-move-support triangles	8-pass sequence in 4v2
3	Dribbling to fix + release	Draw defender then pass	3 successful fix-and-release in 3v2
4	Finishing patterns + GK distribution	First-time and set finishes	Finishing circuit % logged
5	Tactical systems (press/block)	Press triggers + cover shadows	Team applies agreed trigger
6	Match leadership + analysis	Captain roles + half-time review	Lead 60s team analysis

Success criteria — I can...

- I can execute a directed first touch and release under pressure.
- I can combine in triangles and use third-man runs.
- I can finish with both feet in structured patterns.
- I can explain and apply a simple press or block idea.
- I can lead communication and a short performance review.

Year 10 futsal is decision speed with technical cleanliness. The low-bounce ball punishes heavy touches; tight space rewards scanning, disguise and collective pressing.

Why this matters in Year 10

- Maximum touches under fatigue build transferable football intelligence.
- Pressing systems teach collective responsibility.
- Leadership in 5v5 is visible and measurable.

★ DON'T FORGET — Futsal essentials

- Scan before receive; first touch into space or set.
- Pass and move — third man threatens depth.
- Fix a defender before releasing (draw-and-pass).
- Weak foot is non-negotiable at Year 10.
- Press with a trigger; cover the next pass.
- GK: quick distribution to free line, not hopeful clearances.
- If tired: simplify — secure possession first.
- Analyse: which trigger worked? which support angle failed?

Advanced technique

- First touch: sole roll away from pressure; outside-foot disguise; set for weak-foot pass.
- Passing: firm floor passes; weighted set; disguised no-look only when secure.
- Dribbling: sole stops, L-drags, change of pace; protect far foot.
- Shooting: low corners; first-time finishes from third-man cutbacks.
- GK: claim vs parry; distribute in under 3 seconds when possible.

Differentiation — Pressing as a unit

Level	What you do
SUPPORT	Walk-through triggers; passive attackers.
CORE (Year 10 standard)	Live 5v5 with one agreed press trigger (e.g. poor first touch).
CHALLENGE	Multiple triggers; captain sets; half-time tactical change.

Game scenario — Turnover in your half

- Situation: Your team loses the ball; opponent faces forward with numbers.
- A) Everyone sprints back and parks permanently
- B) Nearest delays; others recover goal-side and cut lanes
- C) Argue the foul
- Best Year 10 choice: B
- Why: Delay + recover is Year 10 defensive intelligence.

Micro home learning (10–15 min)

- Weak-foot wall passes 5 min.
- Diagram one press trigger.
- Reflect on one match decision.

Coach's Tip — Mr Filipe Baptista

"Refine performance: master technique, make smart tactical decisions, support teammates, improve every lesson."

Unit 1 quiz — Futsal

Alone first (8–10 min). Use correct PE vocabulary in written answers.

1. A directed first touch under pressure mainly...

- A) Freezes you forever
- B) Creates the next pass/shot angle safely
- C) Replaces scanning
- D) Is only for goalkeepers

2. Third-man run means...

- A) Three goalkeepers

- B) A runner arrives as the third option after a combination
- C) Never supporting
- D) Only dribbling

3. A press trigger is...

- A) Random sprinting
- B) An agreed cue that starts coordinated pressure
- C) Only the coach shouting always
- D) Stopping defence

4. After a turnover facing numbers against...

- A) Dive in recklessly
- B) Nearest delays; others recover and cut lanes
- C) Walk
- D) Blame only

5. Describe one Year 10 finishing pattern in two sentences.

Answer key at end of unit.

Unit 1 answer key

1. B — Next action.
2. B — Third man.
3. B — Trigger.
4. B — Delay/recover.
5. Open — Pattern.

Performance analysis & leadership log

Write with evidence (% , times, examples). Date each entry.

1. Best tactical moment + evidence.
2. Weak-foot progress data.
3. Leadership action.
4. Process goal next match.

Futsal unit rubric

Level	What it looks like
1 Emerging	Heavy touches; isolated; silent.
2 Developing	Skills unopposed; limited systems.
3 Secure	Clean under pressure; applies team idea; communicates.
4 Mastering	Organises press/block; elevates teammates; sharp analysis.

Unit 2 — Cross Country

Term 1 · Endurance periodisation · Race craft · Data-informed PBs

Weekly learning map — Cross Country

Year 10 focus: refine technique, think tactically, lead others, analyse performance.

Week	Focus	Must-master	Exit check
1	Form lab + easy aerobic	Efficient economy at easy pace	Talk-test 12–20 min
2	Hills as strength endurance	Form held on climbs	Hill set logged
3	Pacing models	Even / negative split practice	Execute plan within tolerance
4	Session taxonomy	Easy vs fartlek vs threshold feel	Correctly label & complete session
5	Course craft + nutrition/hydration basics	Landmark plan + fueling notes	Full written race plan
6	Time trial + deep analysis	PB + process review	Analysis sheet complete

Success criteria — I can...

- I can explain why easy running builds later performance.
- I can execute a race plan with effort scale and landmarks.
- I can adapt stride on hills without form collapse.
- I can analyse a race with splits/effort evidence.
- I can lead a warm-up or support pacing for a peer.

Year 10 cross country is periodised thinking: easy work builds the engine; quality work is intentional; race day is controlled aggression with a rescue plan.

Why this matters

- Lifelong fitness literacy.
- Mental toughness with safety.
- Transfer to all sports' energy systems.

★ DON'T FORGET — Cross country essentials

- Easy days are training — not optional laziness.
- Never all-out the first minute of a long race.
- Tall posture; relax hands/jaw under fatigue.
- Shorten uphill; control downhill.
- Rhythm breathing; effort 1–10 honesty.
- PB process > ego ranking.
- Know hazards; medical stop rules absolute.
- Post-race: data first, emotion second.

Differentiation — Race execution

Level	What you do
-------	-------------

SUPPORT	Guided pace groups; walk breaks planned.
CORE (Year 10 standard)	Even-pace plan; effort 6–8 mid; strong controlled finish.
CHALLENGE	Negative split attempt; peer pace leader; full post-race report.

Game scenario — Going out too hot

- Situation: 90s in: panicked breathing, plan abandoned.
- A) Sprint harder
- B) Stop forever
- C) Settle: shorten stride, rhythm breathe, rejoin plan
- Best Year 10 choice: C
- Why: Rescue pacing is elite discipline.

Micro home learning (10–15 min)

- Easy run 20 min if safe.
- Write race plan template filled.
- Mobility 8 min hips/calves.

Coach's Tip — Mr Claudio Pardal

"Preparation, discipline and consistent practice turn ambition into performance."

Unit 2 quiz — Cross country

Alone first (8–10 min). Use correct PE vocabulary in written answers.

1. Easy aerobic running mainly...

- A) Wastes time
- B) Builds base for later quality work
- C) Replaces all hard sessions forever
- D) Requires daily max sprints

2. Overstriding...

- A) Can brake each step and stress shins
- B) Is always ideal
- C) Means resting
- D) Only happens in water

3. Negative split means...

- A) Slowing every kilometre
- B) Second half faster/controlled stronger than first
- C) Walking only
- D) No plan

4. Best post-race habit...

- A) Only blame weather
- B) Review plan vs reality with evidence
- C) Delete times
- D) Ignore form

5. Write your rescue plan if you start too fast.

Answer key at end of unit.

Unit 2 answer key

- 1. B — Base.
- 2. A — Overstride.
- 3. B — Negative split.
- 4. B — Analysis.
- 5. Open — Settle.

Performance analysis & leadership log

Write with evidence (% , times, examples). Date each entry.

- 1. Best paced segment + data.
- 2. Form cue when tired.
- 3. How you led/supported.
- 4. Next PB + process.

Cross country unit rubric

Level	What it looks like
1 Emerging	No plan; unsafe; early collapse.
2 Developing	Some control; weak analysis.
3 Secure	Plan + terrain adapt + honest effort reading.
4 Mastering	Race craft + leadership + precise evaluation.

Unit 3 — Athletics

Term 2 · Speed · Power · Technical models · Competition protocols

Weekly learning map — Athletics

Year 10 focus: refine technique, think tactically, lead others, analyse performance.

Week	Focus	Must-master	Exit check
1	Sprint mechanics & starts	Drive-to-tall model	Flying sprint with 2 cues
2	Acceleration & finish	Run through line	Timed 30–60 m process
3	Relays advanced changeovers	Speed-matched handoff	Clean competitive change
4	Jumps: approach rhythm	Legal take-off focus	Approach without foul habit
5	Throws: kinetic sequence + safety	Legs–hips–trunk–arm	Sector-perfect session
6	Mini meet + biomechanics notes	Event protocols + PB log	PB + technical reflection

Success criteria — I can...

- I can apply drive-to-tall sprint mechanics and finish through the line.
- I can execute a competitive relay handoff in the zone.
- I can show event-specific safety and protocols perfectly.
- I can use simple biomechanical cues (posture, sequence, timing).
- I can chase a PB with a technical process goal.

Athletics rewards precision. Year 10 links coaching points to simple biomechanics: posture, force application, sequencing, and rhythm — always inside strict safety protocols.

Why this matters

- Speed/power base for many sports.
- Honest measurement builds mature athletes.
- Relays = trust under pressure.

★ DON'T FORGET — Athletics essentials

- Maximal efforts only after full warm-up.
- Run through the finish — never ease early.
- Relays won in the changeover zone.
- Throws only when sector clear + instructed.
- If technique breaks, reduce intensity and rebuild.
- PB + process goal every session.
- One or two cues max under competition arousal.
- Protocols are performance, not bureaucracy.

Differentiation — Sprint performance

Level	What you do
SUPPORT	Build-ups 80%; single cue; no max if form fails.

CORE (Year 10 standard)	Starts as taught; flying sprints; timed runs with evaluation.
CHALLENGE	Reaction work; competitive relay order strategy; video notes if allowed.

Game scenario — Throwing sector not clear

- Situation: You feel ready; someone is near the sector.
- A) Throw carefully anyway
- B) Wait for clear + teacher command
- C) Rush a throw to 'save time'
- Best Year 10 choice: B
- Why: Safety overrides PB greed.

Micro home learning (10–15 min)

- A-skips/high knees technique 2x20 m if safe.
- Relay hand-target shadow practice.
- Update PB log with process cue.

Coach's Tip — Mr Filipe Baptista

"Think like an athlete: refine technique, support teammates, improve every session."

Unit 3 quiz — Athletics

Alone first (8–10 min). Use correct PE vocabulary in written answers.

1. Why run through the finish?

- A) Slowing early costs time
- B) Judges ignore finishes
- C) Arms irrelevant
- D) Only for long jump

2. Relay success depends heavily on...

- A) Kit colour
- B) Speed-matched handoff in the zone
- C) Silence
- D) Random baton tosses

3. Throwing golden rule...

- A) Throw whenever ready
- B) Only when sector clear + instructed
- C) Stand in front to film unsafely
- D) Retrieve blind

4. If technique collapses under max effort...

- A) Keep maxing until injured
- B) Reduce intensity and rebuild cues
- C) Quit sport forever
- D) Ignore coach

5. Write one biomechanical cue for your main event.

Answer key at end of unit.

Unit 3 answer key

- 1. A — Finish.
- 2. B — Handoff.
- 3. B — Sector.
- 4. B — Rebuild.
- 5. Open — Cue.

Performance analysis & leadership log

Write with evidence (% , times, examples). Date each entry.

- 1. Event with most technical gain.
- 2. Where form breaks when aroused.
- 3. Relay trust action.
- 4. PB + process goal.

Athletics unit rubric

Level	What it looks like
1 Emerging	Unsafe/chaotic; no process.
2 Developing	Some technique; weak protocols.
3 Secure	Safe protocols; clear cues; PB intent with process.
4 Mastering	Excellent protocols; leads culture; precise evaluation.

Unit 4 — Aerobics

Term 2 · Performance craft · Choreography leadership · Controlled fitness

Weekly learning map — Aerobics

Year 10 focus: refine technique, think tactically, lead others, analyse performance.

Week	Focus	Must-master	Exit check
1	Posture, base vocabulary, counting mastery	On-beat precision	64–96 counts clean
2	Phrase architecture	Named 8-count map	Group map complete
3	Arms + amplitude control	Layer after feet	Checklist 5/7
4	Formations, levels, strength elements	Safe entries/exits	2 formation changes
5	Full routine polish + blank recovery	Recovery systems	3 full runs logged
6	Assessment performance	Presence + sync + freeze	Show + elite feedback

Success criteria — I can...

- I can perform advanced counted phrases with posture and control.
- I can lead counts and help design formations.
- I can layer complexity without losing timing.
- I can recover from blanks without stopping the show.
- I can give count-specific peer feedback.

Year 10 aerobics is performance production: synchronisation, amplitude with control, musicality, formations, and rehearsal leadership.

Why this matters

- Presentation confidence under evaluation.
- Project leadership.
- Fitness with technical discipline.

★ DON'T FORGET — Aerobics essentials

- Count to learn; internalise to perform.
- Feet → arms → formations (order matters).
- Soft knees; quiet landings = control marks.
- Core braced; tall posture; clean arm lines.
- Start/end freezes held still.
- Blank recovery is assessed — keep moving with music.
- Feedback: strength + specific counts.
- Energy from count 1 to final freeze.

Differentiation — Performance leadership

Level	What you do
-------	-------------

SUPPORT	Follow counts; low-impact options; shorter piece.
CORE (Year 10 standard)	Full group routine; sync; feedback protocol.
CHALLENGE	Lead counts; design formations; coach blank-recovery plan.

Micro home learning (10–15 min)

- First 16 counts daily x3.
- Film once if allowed; two fixes.
- Formation diagram.

Coach's Tip — Mr Claudio Pardal

"Preparation, discipline, teamwork and consistent practice create confident performances."

Unit 4 quiz — Aerobics

Alone first (8–10 min). Use correct PE vocabulary in written answers.

1. Layering arms after footwork...

- A) Is banned
- B) Protects timing while adding complexity
- C) Means ignore music
- D) Only jumps count

2. Quiet landings show...

- A) Weakness only
- B) Control and joint safety
- C) Slow music
- D) No counting needed

3. Blank recovery means...

- A) Stop and argue
- B) Continue with music and rejoin
- C) Leave forever
- D) Blame loudly

4. Elite feedback includes...

- A) Only insults
- B) Strength + count-specific improvement
- C) Silence
- D) Unrelated appearance comments

5. Describe start and end freezes.

Start: __ End: __

Answer key at end of unit.

Unit 4 answer key

1. B — Layer.
2. B — Control.
3. B — Recover.
4. B — Feedback.
5. Open — Design.

Performance analysis & leadership log

Write with evidence (% , times, examples). Date each entry.

1. Leadership evidence in rehearsal.
2. Biggest polish gain.
3. How you fixed a teammate's timing.
4. Transfer to another sport.

Aerobics unit rubric

Level	What it looks like
1 Emerging	Off-beat; unsafe; disengaged.
2 Developing	Some timing; weak memory.
3 Secure	On beat; strong presence; useful feedback.
4 Mastering	Leads production; recovery systems; elevates group.

Unit 5 — Korfball

Term 3 · Mixed invasion · Movement IQ · Inclusion as performance

Weekly learning map — Korfball

Year 10 focus: refine technique, think tactically, lead others, analyse performance.

Week	Focus	Must-master	Exit check
1	Unique rules + mixed principles	No-dribble identity; roles	Rules mastery check
2	Pass-move on tempo	Accurate passes to moving targets	Live 4v4 pass standards
3	Shooting + rebound units	Shot-rebound pairs	% logged
4	Create free shooter patterns	Movement patterns as rules allow	Assisted free shots tally
5	Defence: deny + contest legally	Position before contest	Hold shape 6 possessions
6	Match leadership + inclusion	Fair involvement metrics	Captain inclusion report

Success criteria — I can...

- I can explain korfball's mixed-team identity and key school rules.
- I can attack through pass-and-move without dribble dependency.
- I can shoot with balance and rebound responsibly.
- I can create and deny space through positioning.
- I can lead inclusive, respectful mixed teamwork.

Korfball rewards intelligent off-ball movement and cooperative scoring. Exact defended-shot rules are as taught — learn them precisely; they drive decisions.

Why this matters

- Inclusion is a high-performance skill.
- Off-ball IQ transfers widely.
- Communication maturity in mixed teams.

★ DON'T FORGET — Korfball essentials

- Pass and move — static attacks die.
- Create free shooters within the rules.
- Call early; target hands.
- Every shot has rebound jobs.
- Defend positionally first; contest fairly.
- Include every teammate in patterns.
- Respect mixed-team values always.
- Know defended/undefended shot rules as taught.

Differentiation — Create free shot

Level	What you do
-------	-------------

SUPPORT	2v1 walk-through; passive D.
CORE (Year 10 standard)	4v4; pass before shot; movement emphasis.
CHALLENGE	Live; track assisted free shots; rotate leaders.

Game scenario — Uneven involvement

- Situation: One classmate has barely touched the ball.
- A) Ignore and only use 'best' players
- B) Force hopeless passes into traffic
- C) Design a simple entry pass and call them into space
- Best Year 10 choice: C
- Why: Year 10 leadership includes inclusion without chaos.

Micro home learning (10–15 min)

- Wall passes 5 min both sides.
- Draw a 4-player free-shooter pattern.
- 6 inclusion calls list.

Coach's Tip — Mr Filipe Baptista

"Smart movement and teamwork beat isolation play."

Unit 5 quiz — Korfball

Alone first (8–10 min). Use correct PE vocabulary in written answers.

1. Korfball especially rewards...

- A) Solo dribble heroics only
- B) Mixed teamwork and movement to create shots
- C) Silence
- D) Ball-hogging

2. Key attacking habit...

- A) Stand still after passes
- B) Pass and move to free a shooter
- C) Never rebound
- D) Exclude teammates

3. After a shot...

- A) Turn away
- B) Rebound responsibility until secured
- C) Leave court
- D) Argue

4. Inclusion is...

- A) Optional decoration
- B) Core to the sport and Year 10 leadership
- C) Warm-up only
- D) Discouraged

5. Write two school-specific korfball rules you must remember.

1) _ 2) _

Answer key at end of unit.

Unit 5 answer key

- 1. B — Team movement.
- 2. B — Pass-move.
- 3. B — Rebound.
- 4. B — Inclusion.
- 5. Open — Rules.

Performance analysis & leadership log

Write with evidence (% , times, examples). Date each entry.

- 1. Best free-shooter pattern.
- 2. Inclusion leadership evidence.
- 3. Defensive positioning grade.
- 4. Next leadership goal.

Korfball unit rubric

Level	What it looks like
1 Emerging	Static; exclusive; poor control.
2 Developing	Drills OK; limited off-ball IQ.
3 Secure	Move+pass; fair D; includes teammates.
4 Mastering	Designs patterns; models inclusion under pressure.

Unit 6 — American Football (non-contact / touch)

Term 3 · Play design · Timing · Assignments · Safety culture

Weekly learning map — American Football (touch)

Year 10 focus: refine technique, think tactically, lead others, analyse performance.

Week	Focus	Must-master	Exit check
1	Field, downs concept, safety, positions	Safe touch rules mastery	Rules + walkthrough clean
2	Throw/catch under fatigue	Catchable ball standard	20/25 catchable throws
3	Route tree timing	On-time breaks	Route on call + catch
4	QB progression reads	Primary → checkdown	Live 3v2 decisions
5	Defence assignments + communication	Stay home; talk	5 plays zero blown assignments
6	Team games + play-calling	Mini playbook + huddle leadership	Lead huddle + post-drive review

Success criteria — I can...

- I can operate within school non-contact/touch rules safely at all times.
- I can throw/catch with Year 10 timing standards.
- I can run routes on time and explain their purpose.
- I can keep defensive assignments and communicate.
- I can lead a clear huddle and simple play call.

School American football is non-contact/touch as taught. Year 10 emphasises play design, timing, assignment discipline and leadership — the 'chess' of invasion sports without tackling.

Why this matters

- Complex pre-play communication.
- Spatial timing under speed.
- Role discipline = team trust.

★ DON'T FORGET — Touch American football essentials

- Safety first: only the contact level taught.
- One voice in the huddle; break together.
- Routes on time beat freestyle.
- Eyes on ball into hands.
- QB: progression — don't force covered primary.
- Defence: assignment before ball-watching.
- Communicate simply and early.
- Celebrate clean execution, not only scores.

Differentiation — Pass game

Level	What you do
-------	-------------

SUPPORT	Walk-through routes; reduced defenders.
CORE (Year 10 standard)	Tempo routes vs passive D; catchable standard.
CHALLENGE	Live small-sided; full progression reads; hot rules if taught.

Game scenario — Primary covered

- Situation: First read blanketed; checkdown free.
- A) Force hero ball into double coverage
- B) Hold forever
- C) Throw open checkdown
- Best Year 10 choice: C
- Why: Open receiver beats ego.

Micro home learning (10–15 min)

- Accuracy throws 5 min.
- Draw 4 routes + names.
- 4-play mini playbook with calls.

Coach's Tip — Mr Claudio Pardal

"Execution under pressure comes from preparation, discipline and teamwork."

Unit 6 quiz — American football (touch)

Alone first (8–10 min). Use correct PE vocabulary in written answers.

1. Top priority in school format...

- A) Full tackling always
- B) Safe play within taught rules + team strategy
- C) Ignore assignments
- D) No communication

2. Route on time means...

- A) Arrive whenever
- B) Break/depth matches play timing for a catchable throw
- C) Random sprint only
- D) Stand still

3. If primary covered...

- A) Force traffic throw
- B) Progress to next open option
- C) Argue
- D) Leave field

4. Defence succeeds when...

- A) All chase ball only
- B) Assignments kept + communication
- C) Silence
- D) Illegal contact

5. Write two non-negotiable safety rules.

1) _ 2) _

Answer key at end of unit.

Unit 6 answer key

- 1. B — Safe strategy.
- 2. B — Timing.
- 3. B — Progression.
- 4. B — Assignments.
- 5. Open — Safety.

Performance analysis & leadership log

Write with evidence (% , times, examples). Date each entry.

- 1. Best timed play.
- 2. Huddle leadership moment.
- 3. Assignment grade.
- 4. Playbook improvement idea.

American football unit rubric

Level	What it looks like
1 Emerging	Unsafe/chaotic; no roles.
2 Developing	Skills isolated; weak timing.
3 Secure	Works in small games; clear huddle; safe.
4 Mastering	Organises play-calling; excellent reads; safety culture leader.

Capstone — Year 10 athlete portfolio

- Technical masterpiece: ___ Evidence: ___
- Best tactical decision under pressure: ___
- Best leadership/inclusion moment: ___
- Fitness/PB story: before ___ after ___ process: ___
- Sport I will continue post-Y10: ___ Why: ___
- Advice to next Year 10: ___

★ DON'T FORGET — All units — pocket revision

- Futsal: scan; fix-and-release; press triggers; weak foot.
- Cross country: easy base; race craft; rescue pacing; analyse data.
- Athletics: drive-to-tall; handoff; sector safety; process cues.
- Aerobics: counts; layer; formations; blank recovery; freeze.
- Korfbal: pass-move; free shooter; rebound; inclusion.
- American football (touch): huddle; routes on time; progression; assignments; safety.

End-of-year reflection

1. Where did you most improve as a decision-maker?
2. Where did leadership grow? Evidence?
3. Which healthy habit is now automatic?
4. How will you stay active next year?

Glossary (British English)

Assignment: Your job on a play (especially defence).

Checkdown: Shorter safer pass when deep is covered.

Core level: Year 10 standard expectation.

Kinetic sequence: Order of body parts generating power (throws).

Negative split: Second half faster/stronger than the first.

Periodisation: Planning easy and hard training over time.

Personal best (PB): Your best measured mark so far.

Practise / practice: Verb vs noun in British English.

Press trigger: Agreed cue that starts coordinated pressure.

Third-man run: Runner becoming the third option in a combination.
